

GOVARDHAN KHADAKKAR

+1 (573) 639-5628 | khadakkargovardhan@gmail.com | [linkedin.com/in/govardhan-khadakkar](https://www.linkedin.com/in/govardhan-khadakkar)

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, Scala

Frameworks: Spring Boot, Flask, FastAPI, Angular, Node.js

Cloud & DevOps: AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Terraform, Jenkins, Git, Maven

Data Systems: SQL, NoSQL, Snowflake, MySQL, MongoDB, Kafka, Spark, Hadoop

AI & Data Tools: LangChain, Ollama, TensorFlow, Scikit-learn, Pandas, Power BI, Qlik Cloud

Testing & Monitoring: JUnit, PyTest, SonarQube, Prometheus, Grafana, JMeter

WORK EXPERIENCE

Backend Developer (Research Assistant) | University of Missouri, Columbia, MO, USA Jan 2024 – Present

- Architected and deployed a Python Flask and Angular platform on AWS with Docker that streamlines experiment tracking and visualization for researchers and partner labs and cut workflow time by 30 percent
- Designed and optimized an AI-powered LLM retrieval engine with LangChain, Neo4j, and Ollama that automatically extracts biological relationships across large datasets and publications
- Tuned MySQL and MongoDB with advanced indexing and normalization, cutting query latency by 20% in analysis & API calls
- Delivered and maintained 25+ REST APIs integrated with Angular and automated infrastructure tasks (SSL renewals, log rotation, and scheduled backups) via shell scripting and cron, supporting uninterrupted access for research teams

Data Science Intern | Siemens Healthineers, Cary, NC, USA May 2024 – Aug 2024

- Improved workforce planning efficiency by 25% through predictive modeling using Python, Snowflake, and Databricks
- Built ETL workflows in Python to extract, transform, and validate large datasets from Snowflake, and feed OLS models after outlier handling and imputation, cutting data errors by 40%
- Designed 20+ Qlik Cloud dashboards and applied OLS stepwise regression (AIC/BIC) to identify top five performance drivers
- Presented data insights to senior management, supporting resource allocation decisions across multiple U.S. business units

Senior Software Engineer | Tech Mahindra, Nagpur, India Feb 2023 – Jul 2023

- Delivered an order tracking system with Java Spring Boot microservices on AWS (EC2 S3 CloudWatch). Validated with JMeter to sustain more than 1K+ concurrent users and more than 10K+ daily orders while meeting uptime and latency targets
- Implemented Redis - Spring Cache to store frequently queried order data, reducing API response times by 30% under peak load
- Mentored junior developers in SDLC and API Design, improving delivery readiness and cutting client onboarding time by 50%

Software Engineer | LTIMINDTREE, Pune, India May 2020 – Feb 2023

- Developed high-performance REST APIs in Java Spring Boot microservices connecting GCS, S3, Hive, Hadoop, BigQuery, Power BI within the Fosfor data platform, improving data throughput by 30% and supporting analytics across 5+ enterprise clients
- Designed and optimized distributed Spark ETL pipelines on Kubernetes for large-scale batch ingestion and schema discovery, processing multi-terabyte datasets 35% faster, and ensuring consistent performance through partitioning and caching strategies
- Implemented and maintained automated CI/CD pipelines with GitLab, Maven, and Jenkins, and deployed Prometheus - Grafana for real-time system monitoring, accelerating releases by 40%, and reducing mean time to resolution (MTTR) by 25%

Assistant System Engineer | Tata Consultancy Services, Thane, India Jun 2019 – Mar 2020

- Administered security platforms (Firewalls, VPNs, Proxies) and resolved 7-8 daily incidents and root-cause analysis on ServiceNow; reducing vulnerabilities and improved system reliability and delivering security reports

EDUCATION

Master of Science in Computer Science, University of Missouri - Columbia, USA (GPA: 3.89/4.00) May 2025

Bachelor of Engineering in Information Technology, Sant Gadge Baba Amravati University, India (GPA: 7.57/10.00) June 2019

CERTIFICATIONS

- AWS Certified Solutions Architect Associate
- Microsoft Certified Fabric Data Engineer Associate

PUBLICATION

- Xu, C; Yu, Y; Khadakkar, G; Xie, J; Xu, D; Yao, Q. (2025). "Multimodal knowledge expansion widget powered by plant protein phosphorylation database and ChatGPT." *Front. Bioinform*, 5:1687687. doi: 10.3389/fbinf.2025.1687687

AWARDS & LEADERSHIP

- Recognized as Outstanding Master's Student (2025) by EECS department at University of Missouri-Columbia
- 2nd Prize, MUIDSI Hackathon 2025 for [Vision-AI project](#), an emergency assistance tool supporting visually impaired
- Led budget management and reporting as a Treasurer at University Fighting World Hunger (UFWH)
