Education

University of North Texas

Masters of Science in Computer Science

Aug 2023 – May 2025

Denton, Texas

Vellore Institute of Technology

Bachelor of Technology in Computer Science

Aug 2017 – June 2021

Chennai, India

Relevant Coursework

- Computer Networks
- Software Engineering
- Software Development for AI
- Fundamentals of Database systems
- Analysis of Computer Algorithms
- Big Data and Data Science
- Machine Learning
- Computer Architecture
- Information Retrieval and web search
- Data Modeling
- Data Mining

Experience

University of North Texas

Teaching Assistant

Aug 2024 – Present

Denton, Texas

- Mentored and instructed 140+ students, conducting 10 office hours per week to assist with course material, increasing assignment submission rates by 20%
- Graded 100+ assignments and projects, providing detailed feedback that improved student performance by 15% and enhanced understanding of software engineering concepts.

Qualcomm

Software Engineer

Dec 2021 – August 2023

Chennai, India

- Developed and deployed the Online Demand Debugging (ODD) Tool using Django, React.js, FastAPI, and AWS EKS, reducing deployment time.
- Built and managed RESTful APIs with MongoDB, automated log parsing using Python, and improved Wi-Fi log access efficiency.
- Implemented Grafana, Loki, Docker, and Kubernetes for monitoring and orchestration, enhancing scalability and debugging efficiency.
- Optimized CI/CD pipelines using Jenkins, monitored cloud-hosted APIs, and conducted knowledge transfer sessions for teams.

Wipro Technologies

Project Engineer

July 2021 – December 2021

Hyderabad, India

- Assigned to a Spring Boot project, where I gained hands-on experience in Java, RESTful API development, and microservices architecture.
- Developed and tested REST APIs using Spring Boot, enhancing system interoperability and scalability.
- Utilized AWS S3 for secure product image storage and Dockerized services for scalable deployments

Projects

Elderly Companion App | *React, Firebase, Figma, Amazon Web Services(AWS)*

- Developed and deployed the Elderly Companion App using React, Firebase, and AWS (EC2), enhancing accessibility and increasing user engagement by 30%.
- Integrated Firebase for authentication and real-time database management, reducing sign-in issues by 40% and enhancing data access efficiency.
- Designed and implemented key app screens using Figma, enhancing user experience and UI consistency.

Our Smart Medico | *HTML, CSS, Javascript, React, Python, Flask*

- Developed a platform that enables quick access to patient medical histories via QR codes, leveraging multithreading to handle multiple concurrent data access requests.
- Built the frontend using HTML, CSS, JavaScript, and React, ensuring a responsive and user-friendly interface for seamless interactions and Leveraged Flask for backend development

Technical Skills

Languages: Python, Java, JavaScript, HTML5, CSS3, SQL, Bash

Tools and Databases : VS Code, Eclipse, MySQL, MongoDB, Elasticsearch, Firebase, Postman, FastAPI, Grafana, Loki

Libraries/Frameworks: React.js, Springboot, Django, GitHub, Flask, REST APIs, JSON, Junit

DevOps : Agile Methodologies, CI/CD, Jenkins, Docker, Kubernetes, Amazon Web Services(AWS), Git, Linux, Jira, Github, Gerrit
