

GOWTHAM KUMAR KAVITI

DATA ANALYST

USA • +1 (704) 400-1450 • gowthamkumarkaviti3@gmail.com

PROFESSIONAL SUMMARY

Analytical and results-driven Data Analyst with over 3 years of experience transforming complex data into actionable insights to support business objectives. Proficient in SQL, Python, Power BI, Tableau, and predictive modeling with a strong understanding of data visualization, machine learning, and ETL pipelines. Proven ability to automate workflows, improve forecast accuracy, and optimize data processes in cross-functional teams. Actively pursuing opportunities to drive data-informed decision-making in a dynamic organization.

SKILLS

- Data Analytics: SQL, Python, R, PL/SQL, Excel (VBA), Jupyter Notebook
- Data Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Machine Learning: Scikit-learn, TensorFlow, Regression, Classification, Clustering, ARIMA, Prophet
- Data Engineering: Data Cleaning, Data Transformation, ETL, Hadoop, Apache Spark, Azure Data Factory
- Databases: MySQL, PostgreSQL, SQL Server
- Soft Skills: Business Analysis, Communication, Agile/Scrum, Problem Solving

WORK HISTORY

Data Analyst Trainee

08/2023 - Current

kalanjiam Enterprises

- Developed interactive Power BI dashboards to visualize KPIs, increasing stakeholder engagement
- Applied K-Means clustering for customer segmentation, improving marketing ROI by 25%
- Streamlined reporting by automating data extraction and transformation using SQL and Python
- Collaborated with cross-functional teams to define KPIs and ensure consistent reporting standards

Data Analyst

01/2023 - 07/2023

Infosys Ltd - Bangalore, India

- Designed and deployed Tableau dashboards for sales performance, enhancing visibility into metrics
- Built and maintained predictive models (regression/classification), improving forecast accuracy by 15%
- Automated weekly reporting tasks using Python and Excel VBA, saving over 12 hours weekly
- Conducted churn analysis and lifecycle studies to identify customer retention opportunities
- Partnered with business units to optimize existing data pipelines and improve data quality by 20%

Data Engineering Analyst - Senior Process Executive

09/2021 - 12/2022

Cognizant Technology Solutions - Bangalore, India

- Conducted data audits and validation checks, improving data integrity by 18%
- Created real-time dashboards in Tableau and Power BI to monitor operational performance
- Assisted developers in integrating data analytics into enterprise-level applications
- Delivered timely ad-hoc reports and dashboards to multiple business stakeholders
- Contributed to Agile project cycles, sprint planning, and process documentation

Business Analyst Intern

08/2020 - 08/2021

COEPD (Client: HDFC via Accenture) - Bangalore, India

- Gathered and documented business requirements through stakeholder interaction
- Designed internal reports and dashboards to streamline workflow and improve productivity
- Delivered reports aligning with strategic business goals and executive-level insights

PROJECTS

Retail Sales Forecasting

- Built ARIMA and Prophet time-series models for regional sales predictions
- Improved forecast accuracy by 15%, enabling better inventory and sales planning

Revenue Intelligence Dashboard

- Created a Power BI dashboard visualizing revenue trends across regions
- Delivered real-time data access for leadership teams, supporting faster decisions

Customer Segmentation

- Applied K-Means clustering to identify behavioral customer segments
- Resulted in improved personalization and campaign conversion rates

CERTIFICATIONS

- Microsoft Certified: Data Analyst Associate
- Google Data Analytics Professional Certificate
- IBM Data Analyst Professional Certificate
- Data Science Specialization - Coursera
- Python for Data Science & Machine Learning - Udemy

EDUCATION

MSc: Computer and Information Sciences, **Christian Brothers University** - Memphis, TN |12/2024

BBA: Finance, **Vivekananda Institute of Management** - Bangalore, India| 08/2020
