SUMMARY

Data Analyst with 3+ years of experience extracting insights from financial, operational, and web-based datasets. Proficient in SQL, Python, Tableau, and Power BI. Demonstrated success in building dashboards, automating reports, and performing statistical modeling to drive business performance. Experienced in cross-functional collaboration and data-driven strategy.

SKILLSET

- **Programming & Scripting:** Python (Pandas, NumPy), SQL, JavaScript, HTML, CSS, React (basic proficiency), data structures
- **Data Analysis & Engineering:** ETL, Data Wrangling, Data Cleaning, Predictive Modeling, Statistical Analysis, Troubleshooting, Transformation, Snowflake, REST APIs, database management (SQL, AWS), compliance & risk analytics
- **Machine Learning & AI:** Machine Learning, Deep Learning, NLP
- **Visualization & Reporting:** Tableau, Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Macros), dashboards, data storytelling, Jupyter Notebook
- **Cloud Platforms:** AWS, Azure (basic proficiency), GCP (basic proficiency)
- **Business & Analytical Skills:** Strategic planning, agile, KPI analysis, capital markets, financial & investment data analysis, business intelligence, data-driven decision-making, derivatives, reporting automation
- **Soft Skills:** Effective communication, stakeholder management, decision-making, problem-solving, critical thinking, project management, cross-functional collaboration, attention to detail, time management, growth mindset

WORK EXPERIENCE

Ameriprise Financial, Data Analyst – Charlotte, NC

Nov 2022 – Present

- Automated financial reporting workflows, reducing manual effort by 40% and increasing data accuracy.
- Developed predictive models using SQL, Python, and Power BI to evaluate market trends and client portfolios.
- Improved ETL pipelines for real-time integration of structured/unstructured data, boosting operational efficiency.
- Built dashboards to monitor regulatory compliance and risk exposure, enabling faster resolution of key issues.
- Analyzed investor behavior for personalized financial strategies, improving client retention by 15%.
- Collaborated across finance, IT, and business units to deliver actionable analytics.

GCS Techno Solutions, Data Analyst – Bangalore, India

Jan 2021 – Jun 2022

- Reduced operational costs by 20% through automated data pipelines using Python and SQL.
- Created interactive Tableau dashboards for KPI tracking, enhancing decision-making across departments.
- Improved predictive model accuracy by 18% through data cleaning and feature engineering.
- Streamlined ETL operations, reducing processing time by 30% while maintaining 99.9% data accuracy.
- Contributed to customer segmentation that improved retention by 12%.

INTERNSHIPS & PROJECTS

International Institute of Information Technology-Bangalore, Summer Research Intern

Jun 2023 – Aug 2023

- Delivered insights to Karnataka's government, boosting state investment revenue by 15%.
- Built Tableau dashboards for budget analysis, improving cost-effectiveness by 20%.
- Developed a WordPress plugin (MailPoet) for SDG-focused email campaigns and documentation.
- Performed correlation and impact analysis, improving prediction accuracy by 15%.
- Contributed to the Karnataka Data Lake Project with 99.97% data accuracy.

Infosys, System Engineer Trainee

Jan 2022 – Apr 2022

- Enhanced data transparency, improving decision-making by 25% across teams.
- Analyzed movie data using Power BI and SQL for real-world insights.
- Collaborated with a 6-member team to present business dashboards and recommendations.

Digitran Solutions, Software Engineer Intern

Jun 2021 – Aug 2021

- Led front-end development using React, improving user experience by 30%.
- Optimized workflows, reducing operational expenses by 50%.

Quality Theorem, Web Development Intern

Jan 2021 – May 2021

- Developed a booking platform for a temple using HTML/CSS, reducing visitor wait times by 30%.
- Transformed business requirements into accessible digital tools.

EDUCATION

Master of Science in Computer Science, Clemson University - Clemson, SC

Aug 2022- May 2024

Bachelor of Technology in Computer Science & Engineering, Dayananda Sagar University – India

Jan 2018- Jun 2022
