Professional Summary

Java Full Stack Developer with 2+ years of professional experience as a Freelancer in building scalable web applications using Java, Spring Boot, React, and SQL databases. Skilled in problem-solving, debugging, and delivering end-to-end solutions across full-stack environments. Experienced in collaborating with cross-functional teams to deliver enterprise-grade software development solutions.

Technical Skills

Languages	Java, JavaScript, SQL, Spring Boot
Front End Technologies	HTML, CSS, JavaScript, React.js
Databases	SQL, PostgreSQL
Tools	Git, GitHub, Eclipse, Postman, Excel, Word

Academic Projects

- Employee Management System | Java, Spring Boot, React, PostgreSQL
 - * Developed a web-based employee management system with features like employee onboarding, role-based access, and payroll integration.
 - * Implemented REST APIs in Spring Boot for employee data CRUD operations and authentication.
 - * Built a responsive UI using React with reusable components and integrated backend APIs.Used PostgreSQL for relational data storage and optimized queries for performance.
- E-Commerce Shopping Cart | Java, Spring Boot, React, MySQL
 - * Designed and implemented a shopping cart system supporting product catalog, cart, checkout, and order history.

- * Built microservices using Spring Boot for product, order, and payment management.
- * Integrated secure login/authentication with JWT tokens.
- * Used React for frontend development with dynamic UI rendering and API integration.
- * MySQL was used for database storage with proper indexing for fast retrieval.
- Online Book store | Java, Spring Boot, MySQL, HTML, CSS.
 - * Developed a CRUD-based book management system using Spring Boot and java.
 - * Integrated user login, book search, and cart functionality.
 - * Used MySQL for backend data storage and retrieval.
- Student Result Management Portal | Java, HTML, CSS, JavaScript.
 - * Created a portal where students can log in to view their marks and download report cards.
 - * Built login/authentication using Java Servlets and session handling.
 - * Used Java backend to calculate GPA/percentage and generate dynamic result pages.
 - * Developed validation forms using JavaScript for error handling (e.g., invalid roll numbers).

Education

- Master of Science (MS) – Computer Science

University of Bridgeport, Bridgeport, Connecticut.

2023-2025 | CGPA: 3.4/4

- Bachelor of Technology (B. Tech)- Computer Science

CMR College of Engineering and Technology, Hyderabad, Telangana.

2019 – 2023 | CGPA: 8.6/10

Certifications

Full Stack Developer Certification – FreeCodeCamp

Meta React Front-End Developer Professional Certificate – Coursera

SQL / Database Certification
