Chicago, IL | hansika.garapati@gmail.com | 618 491 0628 | LinkedIn

Summary

Business Analyst with a strong software engineering foundation (Java, SQL, APIs) and experience bridging business needs with scalable digital solutions. Skilled in requirements gathering, workflow documentation, and SDLC delivery for high-impact technology initiatives. Recognized for cross-functional collaboration, problem-solving, and data-driven decision-making in fast-paced environments.

Education

Master of Science in Management Information Systems University of Illinois Chicago GPA 4.0	Aug 2023 – May 2025
Bachelor of Science in Information Technology Mahatma Gandhi Institute of Technology GPA 3.4	Aug 2017 – July 2021

Industry Experience

Product Business Analyst , SpotOnResponse – Chicago, IL	Aug 2025 – present
- Partner with engineering, QA, and business teams to define and deliver disaster response solutions supporting 100+ users. - Designed and launched a Flutter app with Firebase integration, enabling real-time reporting and secure community recovery workflows. - Planned and scoped AI-driven analytics features projected to increase adoption by 20% and improve operational insights. - Created and maintained product roadmaps and release plans to enhance delivery efficiency and transparency.	
Teaching Assistant , University of Illinois Chicago – Chicago, IL	Aug 2024 – May 2025
- Mentored 120+ students per semester in systems analysis case studies, improving team project completion rates by 15%. - Facilitated labs, graded deliverables, and guided students on requirements gathering and modeling tools (Lucidchart, Jira). - Created analytics dashboards to monitor student progress, surface insights, and guide data-driven improvements.	
Research Associate , Catenon – Hyderabad, India	Sep 2022 – Jul 2023
- Collaborated with senior leadership to analyze operational workflows and cross-functional gaps, recommending solutions that reduced turnaround times. - Reviewed operational streams, pinpointed inefficiencies, and proposed improvements that enhanced workflow consistency. - Maintained structured process documentation, streamlining reporting and enhancing collaboration across workstreams. - Monitored process metrics across teams, identified bottlenecks, and delivered recommendations that accelerated delivery.	
Programmer Analyst , Cognizant – Hyderabad, India	Aug 2021 – July 2022
- Implemented REST APIs for high-volume insurance platform, reducing errors and improving reliability for 10k+ users. - Optimized SQL queries and backend features, increasing database efficiency and response times by 20%. - Led UAT planning and execution with business stakeholders, validating functionality and ensuring adoption of new features.	

Key Projects

AI-Driven E-Commerce Platform	Jan 2025-May 2025
- Directed design and sprint planning for an AI-powered web app, cutting time-to-market by 30%. - Integrated secure Stripe payment gateway APIs and analytics dashboards, enabling data-driven product strategy.	
Apple Watch Market Strategy Analysis	Aug 2024-Oct 2024
- Conducted market research, user surveys, and SWOT analysis to uncover actionable insights, resulting in recommendations for battery life and customization improvements. - Presented findings to stakeholders, driving strategies to increase user retention and satisfaction.	
Airline Performance Dashboard – Tableau Analytics	Jan 2024-Mar 2024
- Built an interactive Tableau dashboard using DOT flight data to benchmark airline efficiency. - Identified 10+ operational improvement opportunities, shaping strategic performance initiatives.	

Technical Skills and Certifications

Technical & Product Tools: Java, Python, SQL, OpenAI, Postman, Lucidchart, Microsoft 365, JIRA, Monday.com, Figma
Data & Analytics: Power BI, Tableau, Excel (Pivot Tables, VLOOKUP, Charts), Google Analytics
Project & Process Management: Agile, Scrum, SDLC, Waterfall, UAT, Retrospectives, Business Process Modeling
Certifications: Google Project Management Professional, CAPM Candidate
