

HARDEEP GUMBER, PhD

Piscataway, NJ, USA

Email: hargumber@gmail.com | Phone: 850-566-2325

LinkedIn: linkedin.com/in/hardeep-gumber

PROFESSIONAL SUMMARY

Scientist turned data analyst with a PhD and 5+ years of experience leveraging data to uncover insights in fast-paced R&D environments. Skilled in experimental design, statistical analysis, and communicating complex findings to both technical and non-technical stakeholders. Proven ability to drive innovation, collaborate cross-functionally, and adapt quickly—ideal for dynamic, data-driven organizations like Outlier.ai.

CORE STRENGTHS

- Experimental Design & Hypothesis Testing
- Data generation, analysis and interpretation
- Statistical & Trend Analysis
- Python, R, SQL, Excel
- Insight Discovery & Reporting
- Cross-functional Communication

PROFESSIONAL EXPERIENCE

Research Scientist

Colgate-Palmolive, Piscataway, NJ

2019 – Present

- Conducted large-scale data analyses to support discovery in oral care, integrating biological data with consumer insights.
- Led initiatives to derive mode of action of products, translating complex data into actionable narratives for R&D and marketing teams.
- Developed reproducible methods for experimental testing and written SOPs.
- Presented key findings at international conferences (e.g., IADR), contributing to Colgate's innovation pipeline.
- Collaborated with interdisciplinary teams (product development, regulatory, marketing) to ensure insights were timely and impactful.
- Reviewer for peer-reviewed scientific journals; co-inventor on a patent pending.

Teaching

Florida State University, Tallahassee, FL
2012 – 2019

- Laboratory teaching assistant for General biology, Plant Biology, Cytogenetics, Genetics and Molecular Biology.
- Teaching Assistant for Plant Biology, Genetics and Molecular Biology.

EDUCATION

PhD in Molecular Biology
Florida State University, Tallahassee, Florida, USA -- 2019

MSc in Biotechnology
Punjab Agricultural University, Ludhiana, Punjab, India -- 2011

TECHNICAL SKILLS

Python (Pandas, NumPy, Seaborn), R (tidyverse, ggplot2), SQL, Excel, Tableau, Git, Jupyter Notebooks, Experimental Design, Statistical Inference, Microscopy, Mass spectrometry, proteomics, 16s sequencing, gene cloning, PCR, qPCR, Western Blot, gel electrophoresis, co-immunoprecipitation, multiplex ELISA assays, sample preparation, hard tissue sections.
