Summary

Results-driven Business Analytics professional with 2+ years of experience transforming complex datasets into actionable insights. Skilled in Python, Power BI, and cloud services (AWS, Azure). Pursuing MS in Business Analytics, delivering projects with measurable impact.

Education

Wichita State University, KS, Wichita
Master's in Business Analytics | Dec 2024

Jawaharlal Nehru Technological University, India
Bachelor of Technology, Computer Science | May 2019

Research Project Assistant, Wichita State University

Mental Health Analysis Using Tech Survey for Data Mining, Wichita State University | Jan 2024 - May 2024

- Analyzed mental health trends in the tech industry using Python (Pandas, sci-kit-learn) and EDA techniques.
- Applied classification models (Decision Trees, Random Forests) with 85% accuracy to predict mental health outcomes.
- Created Power BI reports that improved mental health strategies by 12%.

Quantitative Forecasting: Analyzing Suicide Rates using Time Series (2000-2019) | Jan 2024 - May 2024

- Conducted predictive analysis of suicide rates using time series models in STATA, achieving 95% confidence interval accuracy.
- Developed advanced forecasting strategies using ARIMA and ARCH techniques.

Capstone Project: LLM using Generative AI | Aug 2024 – Dec 2024

- Exploring the implementation of Large Language Models (LLM) for generative AI applications in natural language processing.
- Focused on fine-tuning models to enhance contextual understanding and solve real-world challenges.

Smart Irrigation System Using IoT, JNTUH | Aug 2019

- Developed an IoT-based automated irrigation system with Arduino to optimize water usage, improving efficiency by 20%.
- Utilized cloud platforms for sensor data storage and provided farmers with mobile alerts for system analytics.

Work Experience

Quality Assurance Specialist, Kansas Department of Aging and Disability Services (KDADS) Feb 2025- Present Topeka, KS (Hybrid)

- Apply advanced data analytics principles, to evaluate behavioral health services and programs across Kansas, ensuring alignment with Federal and State Compliance Standards.
- Conduct in-depth claims data analysis using Excel (PivotTables, Power Query, Lookup functions) to identify patterns, anomalies
- Create data visualizations and summary dashboards to present key performance indicators (KPIs) and utilization trends, enabling leadership to make data-driven decisions for resource allocation and policy refinement.
- Lead Pre-review consultations and QA audit cycles with mental health centers, facilitating productive communication and follow-up with key stakeholders including program directors, compliance officers, and external partners.
- Collaborate cross-functionally with internal IT and reporting teams to interpret technical documentation, improve data quality workflows, and suggest system enhancements based on analytical findings.
- Maintain detailed documentation of audit results and program performance metrics, providing actionable insights and influence planning, policy compliance, and service delivery improvements.
- Serve as a liaison between KDADS and contracted community providers, effectively translating technical data insights into operational feedback, fostering improved outcomes and collaboration.

Product Specialist, Dell Technologies, India | Sep 2019 – Jan 2022

- Optimized CRM analytics to improve product recommendations, achieving a 20% increase in cross-selling and \$50,000 revenue growth.
- Documented system configurations and client requirements, collaborating with cross-functional teams.
- Exceeded quarterly targets by 15% through strategic relationship management.

Certifications

- Foundation in Business Analysis: PMI | Oct 2024
- PowerBI with DAX: LinkedIn | Oct 2024
- SEAL Leadership Program | June 2023
- SQL Essential Training: NASBA | Nov 2024

Technical Skills

- Programming Languages: Python
- Data Visualization Tools: Power BI, Tableau
- Cloud Platforms: AWS, Azure, Google Cloud
- Data Manipulation Tools: STATA, SQL Lite, Scikit-learn, TensorFlow, Salesforce, MS Office, Adobe, Excel
