## SUMMARY

A results-driven 2.3 years of experience in automation and data migration, specializing in scripting, ETL processes, and workflow optimization. Skilled in creating scalable and effective automation solutions for faultless data transfer and integration. Looking for a chance to utilize technical knowledge and analytical skills to maximize operational effectiveness and the integrity of data.

## WORK EXPERIENCE

August 2024-Current

### Azure Data Engineer

🏢 Aetna Inc  
📍 Hartford, Connecticut, United States

- \*Worked on Azure Cloud, Azure Data Factory, Azure Data Lake Storage, Azure Synapse Analytics, Azure Analytical services, Azure Cosmos NO SQL DB, and Databricks.
- \*Migrated SQL database to Azure data Lake, Azure data lake Analytics, Azure SQL Database, DataBricks.
- \*Worked on Azure data bricks, PySpark, Spark SQL, Azure ADW, and Hive used to load and transform data.
- \*Developed complex software applications and big data models using Erwin and Denodo, aligning metadata management with organizational requirements.
- \*Automated data processing and security analytics using Python and Apache Spark within IDEs such as Visual Studio and PyCharm, delivering tested and production-ready code.
- \*Automated data model simulations using Unified Modeling Language (UML), leading to improved system efficiency and scalability.
- \*Developed custom Python integrations with various services, significantly improving real-time data synchronization and automation.
- \*Developed ETL pipelines in and out of the data warehouse using a mix of Python and Snowflakes SnowSQL Writing SQL queries against Snowflake.

December 2021-March 2023

### Data Engineer

🏢 FXMKT Technologies Private Limited  
📍 Chennai, India

- \*Developed Python automation scripts to extract database metadata (tables, schemas) from SQL Server and generate structured ETL templates for migration.
- \*Creating pipelines, data flows and complex data transformations and manipulations using Azure Data Factory(ADF) and

PySpark with Databricks.

\*Created External tables in Azure SQL Database for data visualization and reporting purpose.

\*Automated Airbyte connections and streams, streamlining SQL Server to Snowflake data integration with minimal manual intervention.

\*Created reusable pipelines in Data Factory to extract, transform and load data into Azure SQL DB and SQL Data warehouse.

\*created Sigma dashboards for real-time pipeline monitoring, enabling proactive troubleshooting and anomaly detection.

\*Conducted data validation and integrity checks to ensure accurate, high-quality data migration. .

## EDUCATION

2023-2024

### Master of Science in Computer Science

🏠 University of Bridgeport

📍 Bridgeport, Connecticut, United States

Master of Science in Computer Science April 2023 – December 2024 University of Bridgeport, Bridgeport, CT, USA

2018-2022

### Bachelor of Computer Science

🏠 Veltech Institute of Technology

📍 Chennai, India

Bachelor of Computer Science June 2018 – May 2022 Veltech Institute of Technology, Chennai, India

## SKILLS

Automation   Data Migration   Scripting (Scripting Languages)   Database Extract Transform and Load (ETL)   Python Programming/Scripting Language   SQL (Structured Query Language)   Microsoft Windows Azure   Data Lake   Analysis Skills   Apiary/Beekeeping   erwin Data Modeler   Apache Spark   Microsoft Visual Studio   Unified Modeling Language (UML)   Microsoft SQL Server   Power BI   PostgreSQL   MySQL   Docker   MongoDB   Tableau   Security Analysis   Metadata   IDE (Integrated Development Environment)   SQL Databases   Data Processing   Testing   Data Modeling   Cloud Computing   Data Warehousing   Fast Food   Big Data   NoSQL   Software Development   Data Analysis   Data Storage   Systems Scalability   Data Quality   Data Visualization   Identify Issues   Snowflake Schema   Reporting Dashboards   Validation Testing   Database Technology   Time Tracking   Microsoft Certifications   Operational Strategy   Process Improvement

## **CERTIFICATIONS**

Microsoft Azure Fundamentals Certification

## **LANGUAGES**

English - Intermediate

## **WORK AUTHORIZATION**

I am authorized to work in the following countries:

- United States
