

HARISHWAR REDDY CHIRRA

VEEVA VAULT ANALYST (RIM)

Boston ,MA | Harishwar279@gmail.com | +1 351-230-5383 |

SUMMARY

Veeva Vault RIM Analyst with experience in release management, configuration updates, and regulatory compliance for life sciences organizations. Skilled in Veeva Vault RIM impact assessments, workflow and permission-set configuration, incident management (1,000+ cases resolved), and user-access provisioning for 500+ users. Known for streamlining processes, improving data integrity, and solving complex technical issues, including large-file archiving and DAC workbook optimization.

PROFESSIONAL EXPERIENCE

UJR Technologies Pvt Ltd (Analyst)

Oct 2020 - Dec 2023

- Led large-scale user access operations during major Veeva Vault releases, keeping permissions clean, auditable, and compliant.
- Handled day-to-day system support and administration for Vault, including RIM Submissions and comparable regulatory content platforms.
- Performed impact assessments for Veeva Vault RIM in alignment with general release updates, ensuring application stability, data integrity, and regulatory compliance.
- Streamlined access management by building a DAC workbook and guiding teams through smooth role assignments each release.
- Supported major Veeva Vault releases by managing data loads, resolving pre and post release issues, and ensuring the system stayed stable and compliant.
- Protected data integrity through impact assessments aligned to general releases and sound change management, consistent with GxP, 21 CFR Part 11.
- Delivered configuration updates across permission sets, lifecycles, workflows, validation rules, and security models as part of DevOps.
- Provided tiered production support in ServiceNow and produced reports, dashboards, and documentation in Veeva Vault and HP ALM to simplify compliance reporting.
- Strong knowledge of reporting and dashboard creation using Power BI, along with data analysis using SQL.

EDUCATION

Masters In Computer Science

Aug 2023 - May 2025
