

EDUCATION

University at Albany

Master of Science in Computer and Information Science, GPA : 3.45/4

Albany, New York, USA

Aug 2023 - May 2025

Coursework: Software Engineering, Operating Systems, Algorithms&Data Structures, Computer Organization, Database Systems

Shri Vishnu Engineering College For Women

India

Bachelors of Technology in Computer Science and Engineering, GPA : 9.02/10

Aug 2018 - May 2022

Coursework: Analysis and design of Algorithm, Data structure, Relational Database Management System, Operating system, Computer Network, Theory of Computation, Advanced Java, Web Technology, Compiler Organization

TECHNICAL SKILLS

Languages/Databases: Java, Python, C++, C, C#, Javascript, SQL, MYSQL, PL/SQL, PostgreSQL, MongoDB

Web development: HTML/CSS, XML, ReactJS, PHP, ExpressJS, JQuery, NodeJS, Next.js, ASP.NET MVC

Tools: AWS, Git, Maven, Jenkins, Kubernetes, Docker, Azure, Linux/Unix, VSCode, Jupyter Notebook, .NET Framework, Power BI

Libraries: Pandas, NumPy, Matplotlib, TensorFlow, Open Cv

WORK EXPERIENCE

OPTUM

Hyderabad, India

Associate Software Engineer

May 2022 - July 2023

- Identified and resolved critical bugs in UI and also performance issues, improving application stability by 20%.
- Worked on unit test cases in SonarQube, by achieving a code coverage of 50%.
- Developed a new web page with HTML/CSS, JavaScript, ReactJS and jQuery, and created associated databases, integrating them with the application through SQL.
- Fixed technical bugs from customers requests and QA team. Applied fixes and enhancements to SQL scripts through SQL server.
- Addressed and fixed the critical, high, and medium security code vulnerabilities, and also actively participated in migrating the DevOps repository into GitHub Actions, enhancing the CI/CD pipelines.
- Conducted peer code reviews and developed comprehensive unit test cases to ensure high code quality and maintainability in the application.
- Involved in pre and post production activities. Participated in release calls and also supported product releases by thoroughly verifying the application post-deployment of the code to ensure everything functioned correctly in the production environment.

INTERNSHIP

Verzeo

Bangalore, India

Software Developer Intern

Jan 2022 - June 2022

- Created and maintained databases using SQL, resulting in a 15% reduction in data errors and a 10% increase in data accuracy.
- Integrated software components using RESTful APIs, resulting in 20% improvement in application performance and functionality.
- Designed and implemented new front-end features using React.js and JavaScript, enhancing user experience and improving page load times by 20%.

PROJECTS

- **HR Analytics:** Developed an advanced HR Analytics application leveraging Machine Learning techniques(Random forest, Logistic Regression, Gradient Boosting Classifier, Gaussian Naive Bayes) to predict employee attrition. The project involved analyzing HR data and applying various ML algorithms to identify employees who are more likely to leave the organization based on specific attributes. This predictive model aids in proactive decision-making and enhances employee retention with an accuracy of 98.64%.
- **Waste Management Detection using Deep Learning:** Implemented a sophisticated waste detection system utilizing a camera input to categorize various types of wastes into categories like metal, plastic, bio, paper, glass, non-recyclable, other and unknown, it will detect the accuracy of the images. The system uses the YOLOv5 pre-trained algorithm with an accuracy of 91.1% to detect and categorize waste objects, delivering precise image analysis and categorization.
- **CodeCanvas:** Developed a seamless real-time collaboration with features including a real-time database and live code sharing. Designed and implemented functionalities for group work-spaces, Layer functionalities, favourite functionality and whiteboard creation from scratch. Added tools for drawing shapes such as rectangles, ellipses, and sticky notes, along with templates and freehand drawing using a pencil tool.

CERTIFICATIONS

- Python and Django Full-Stack Web Development from Udemy.
- Data Base Management Systems from NPTEL.
- Data structures&Algorithms certification from Indian Institute of Technology Bombay.
