

HARSHAVARDHAN REDDY

9292620040 | harsha.rgvr@gmail.com

PROFESSIONAL SUMMARY

AI/ML Data Scientist with 4+ years of experience designing, developing, and deploying scalable machine learning and deep learning solutions across finance, healthcare, and pharmaceuticals. Skilled in building predictive models, NLP pipelines, computer vision applications, and AI-driven data insights. Proficient in cloud-based environments, big data frameworks, and advanced analytics. Adept at collaborating with cross-functional teams to solve complex business problems and drive data-informed decision-making.

TECHNICAL SKILLS

Programming & Scripting: Python, R, SQL, PySpark, Scala, Java

AI/ML & Deep Learning: TensorFlow, PyTorch, Scikit-learn, Keras, XGBoost, LightGBM, Hugging Face Transformers, OpenCV, NLTK, SpaCy

Data Engineering & Big Data: Apache Spark, Hadoop, Hive, Databricks, Azure Data Lake, AWS S3, Azure Synapse

Visualization & BI: Power BI, Tableau, Matplotlib, Seaborn, Plotly

Cloud & DevOps: Azure ML, AWS SageMaker, Docker, Kubernetes, MLflow, Airflow, Git, Jenkins

Databases & Storage: SQL Server, PostgreSQL, MySQL, MongoDB, NoSQL, Redis

Others: REST APIs, Agile, CI/CD, Data Governance, Feature Engineering, Hyperparameter Tuning, MLOps

PROFESSIONAL EXPERIENCE

Client: Capital One, Albany, NY

Apr 2025 – Present

Role: AI/ML Data Scientist

Responsibilities:

- Designed and implemented predictive and prescriptive ML models for customer segmentation, fraud detection, and credit risk analysis.
- Developed NLP pipelines for sentiment analysis, chatbot optimization, and text classification using Transformers and spaCy.
- Built deep learning computer vision models for document verification and automated anomaly detection.
- Optimized ML workflows with MLOps practices, including model versioning, deployment automation using Docker, Kubernetes, and MLflow.
- Created interactive dashboards using Power BI and Tableau to provide business insights and real-time reporting.
- Collaborated with data engineers and product teams to integrate ML solutions into production environments with robust monitoring and logging.

Environment: Python, R, SQL, PyTorch, TensorFlow, Keras, Scikit-learn, Hugging Face, Azure ML, Databricks, Docker, Kubernetes, MLflow, Power BI, Tableau, Git, Jenkins

Company: Tata Consultancy Services (TCS), India

Dec 2021 – Aug 2023

Role: Data Scientist

Responsibilities:

- Developed machine learning models for predictive analytics in finance and retail domains.
- Built recommendation systems, churn prediction models, and customer lifetime value models using Python and ML libraries.
- Implemented ETL pipelines for large-scale structured and unstructured data leveraging PySpark and SQL.
- Automated model training, testing, and deployment pipelines using Airflow and MLflow.
- Created data visualizations and reports to communicate insights to business stakeholders and support strategic decisions.
- Ensured data quality, preprocessing, and feature engineering for model optimization.

Environment: Python, PySpark, SQL, Scikit-learn, XGBoost, LightGBM, TensorFlow, Airflow, MLflow, Tableau, Power BI, Git, Hadoop, AWS S3

Company: Dr. Reddy's Laboratories, India

May 2020 – Nov 2021

Role: Data Scientist

Responsibilities:

- Designed and deployed ML models for pharmaceutical data analytics, clinical trial outcome prediction, and drug discovery insights.
- Performed exploratory data analysis, feature engineering, and predictive modeling using Python and R.
- Applied NLP for clinical text mining, literature review automation, and adverse event prediction.
- Built dashboards and visualization tools for monitoring KPIs and regulatory reporting.
- Collaborated with cross-functional teams to ensure model compliance with data security and regulatory standards.

Environment: Python, R, SQL, Scikit-learn, TensorFlow, Keras, NLP (NLTK, SpaCy), Tableau, Power BI, MySQL, PostgreSQL, Git

EDUCATION:

Master's in Data Science

- University: Pace University, New York City
- Started: September 2023
- Completed: May 2025

Bachelor's in Mechanical Engineering

- University: Rajeev Gandhi Memorial College
- Started: 2017
- Completed: 2021
