SUMMARY

Data Analyst with 3+ years of experience turning complex data into actionable insights across healthcare, finance, and public sector domains. Skilled in SQL, Python, R, and Excel for data extraction, transformation, and statistical modeling. Proficient in building interactive dashboards with Tableau, Power BI, and Looker to track KPIs and improve business outcomes. Experienced in ETL automation, multi-source data integration, and cloud analytics (AWS, GCP, Azure) using tools like Snowflake, BigQuery, and Redshift. Strong collaborator in Agile teams, translating business needs into scalable, data-driven solutions.

TECHNICAL SKILLS

Programming & Databases: SQL, Java, Python (Pandas, NumPy), R, Oracle, PostgreSQL, MongoDB, Snowflake, MS Access
Visualization Tools: Tableau, Power BI, Looker, QuickSight, Excel (Pivot Tables, VBA Macros), Google Analytics, QlikView
Data Processing & ETL: Alteryx, SSIS, Apache Spark, Hadoop, Airflow, Pandas, dbt
Statistical & Analytical Methods: Regression, Hypothesis Testing, Forecasting, A/B Testing, Time-Series, Predictive Analytics
Cloud Platforms: AWS (S3, Redshift, Glue, Athena, Lambda), GCP (BigQuery, Data Studio), Azure (Synapse, Data Factory)
Collaboration & Tools: JIRA, Confluence, Git, GitHub, SharePoint, MS Teams, Agile/Scrum
Other: Data Governance, Business Process Documentation, KPI Reporting, Requirement Gathering

WORK EXPERIENCE

NCGROWTH | UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL | Chapel Hill, NC

Mar 2025 - Present

Data Analyst

- Designed and deployed 10+ Tableau dashboards under the \$1.4B Opioid Settlement Recovery Housing Support Strategy for State of North Carolina, improving visibility into housing availability, occupancy, and outcomes.
- Built Python and Excel VBA automation for Qualtrics survey data, streamlining reporting and achieving 40% faster turnaround with greater accuracy.
- Conducted demographic, financial, and geographic analysis across 20+ counties, improving equitable allocation of recovery funds by 20%.
- Integrated multi-source datasets (financial, demographic, geographic) into unified data warehouse pipelines, ensuring data quality and consistency for decision-making.
- Collaborated with Providers, Government Officials, Healthcare Teams in Agile sprints to define KPIs and streamline reporting.
- Produced policies, process documentation, and performance reports adopted by executive leadership to strengthen transparency and accountability.
- Delivered weekly reports and presentations aligning analytics with program goals and community outcomes.

AVANTI GROUP | India

May 2021 - Jun 2023

Data Analyst

- Built 10+ stakeholder focused Power BI dashboards tracking financial, sales, inventory, and supply chain KPIs across 10+ regions, boosting operational visibility.
- Automated SQL-based ETL pipelines and Python scripts, reducing manual reporting by 40% and improving data reliability.
- Applied Python (Pandas, NumPy) and statistical forecasting models (SAS, Excel) to optimize inventory planning, improving turnover by 12%.
- Developed real-time campaign performance dashboards in Power BI, increasing marketing ROI by 15%.
- Conducted A/B testing on promotions and pricing, improving customer response rates by 25%.
- Created reusable data templates and automated Excel reporting solutions, standardizing outputs across regional teams.
- Generated structured datasets and analytical frameworks for quarterly trend reviews, supporting executive decision-making.

EDUCATION

UNIVERSITY OF NORTH CAROLINA AT CHARLOTTE | Charlotte, NC

Aug 2023 - Dec 2024

Master of Science in Information Technology

GPA: 4.0 / 4.0

Coursework: Visual Analytics, Applied Database, Machine Learning, BigData Analytics, Data Structures and Algorithms
