

HARSHA SNITHA KAMINENI

3173154867 | harshaskaminen@gmail.com | [LinkedIn](#) | [GIT](#)

Healthcare Analyst with 3+ years of experience providing health economics, outcomes research, and business intelligence solutions using healthcare claims, EHR, SDOH, and real-world data (RWD). Proven ability to conduct cost-effectiveness analyses, identify healthcare utilization trends, and deliver actionable insights for population health management and strategic decision-making. Adept at collaborating with cross-functional teams to support value-based care initiatives and drive healthcare quality improvement using SQL, SAS, Python, R, Tableau, and advanced statistical methods.

Experience

Population Health Analyst Intern

Indianapolis, Indiana

Harvard Pilgrim Healthcare Institute-(HPHCI)

December 2023 – Present

- Utilized SQL to extract and analyze large-scale claims data and provider data, identifying utilization patterns and performance anomalies that improved reporting efficiency by 30%.
- Generated performance reporting quality metric dashboards to support clinical quality improvement and healthcare cost reduction strategies.
- Developed automated SQL-based data tracking pipelines, reducing manual reporting workload by 25%.
- Designed and delivered business performance reports, translating complex population health data into actionable insights for leadership
- Managed secure file transfers (SFTPs) and supported seamless data sharing across healthcare systems, improving reporting by 15%.
- Partnered with clinical and IT teams to validate data accuracy, resolve discrepancies, and enhance system accessibility for timely reporting.
- Provided analytic consultation to the Population Health team, addressing incoming data requests and supporting cross-functional initiatives.

Clinical Research Data Analyst

Indianapolis, Indiana

Wells center of pediatric research- Riley Children's Hospital

August 2023 – May 2025

- Utilized SAS to manage clinical research data, automating study tracking processes and reducing data preparation time by 20%.
- Conducted data analysis and reporting to support clinical trials, ensuring accuracy and regulatory compliance across study workflows.
- Collaborated with cross-departmental teams to implement clinical trial protocols and optimize data collection strategies.
- Led quality audits and internal monitoring to validate protocol adherence, reducing data discrepancies by 15%.
- Created study-specific workflows, enhancing data capture accuracy and improving the efficiency of clinical billing processes.
- Supported Institutional Review Board (IRB) submissions and protocol amendments, improving regulatory turnaround times.

Clinical Investigator

Hyderabad, India

Optum Global Solutions

July 2021- June 2023

- Performed retrospective and prepayment reviews on claims and pharmacy claims datasets to identify billing anomalies and patterns associated with fraud, waste, and abuse. Responsible for second-level appeals reviews
- Investigated and identified provider billing patterns to recommend payment based on medical records, claim history, billing codes, regulatory and state guidelines, and policies
- Conducted in-depth utilization data analysis and provided recommendations that informed provider audits and payment adjustments.
- Reduced investigation processing time by 20% through automated claims querying and improved case triaging strategies.
- Collaborated with Special Investigations Unit (SIU) to identify provider billing trends and address abusive practices.
- Led provider assessments and contributed to audit reports that improved billing integrity and reduced repeat violations.
- Mentored junior clinical reviewers and supported training sessions to improve clinical investigation quality.

Clinical Documentation Improvement Analyst

Hyderabad, India

Apollo Hospitals

October 2020 – June 2021

- Reviewed inpatient records focusing on HEDIS and STARS quality metrics, improving documentation accuracy by 18%.
- Conducted CDI audits that enhanced DRG alignment and optimized hospital reimbursement processes.
- Provided education to physicians and coders, improving clinical documentation quality and reducing reporting errors by 12%.
- Utilized CDI systems to track and resolve documentation anomalies, improving data accuracy and coding compliance.
- Developed automated dashboards for CDI reporting, reducing manual data processing efforts by 25%.
- Partnered with clinical teams to improve documentation clarity, directly supporting improved HEDIS measure capture.

Technical Skills

Analytics & Data Management: SQL (Advanced), SAS (Clinical Data), R, Python, Advanced Excel, Statistical Analysis, Predictive Modeling

Business Intelligence: Tableau, Power BI, Dashboard Development, Performance Reporting, Automated Reporting

Healthcare Data: Claims Data, Provider Data, Pharmacy Claims, Medical Claims, EHR, HEDIS, STARS.

Project Management: Multi-project Coordination, Stakeholder Communication, Timeline Management

Data Standards: SNOMED, ICD, CPT, LOINC, HL7, FHIR, RxNorm, Medicare Claims

Statistical Methods: Cost-effectiveness Analysis, Hypothesis Testing, Bayesian Inference, A/B Testing, Multivariate Regression

Education

Masters in Health Informatics

May 2025

Luddy School of Informatics and Computing, Indiana University

Indianapolis, Indiana

Bachelor of Medicine and Surgery (MBBS)

October 2020

Rajiv Gandhi university of Health Sciences

Bangalore, India

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Advanced Healthcare Analytics and Population Health Management Training

Healthcare Data Science and Business Intelligence Certificate Program

Conference Presenter, International Symposium on Biomedical Imaging 2023, Greece

Presenter, Annual Health Equity Summit 2024, Indiana

AMIA Conference Presenter 2024, California
