

Harsha Vardhan Joshula

Data Scientist | Machine Learning Engineer | Full-Stack Developer

Address: 1107 North Underhill Street, Peoria, IL 61606

Email: joshula1213@gmail.com | Phone: 815-310-5819 | [LinkedIn Profile](#)

Work Authorization: F1 OPT (STEM eligible). Authorized to work in the US without sponsorship until July 2028.

PROFESSIONAL SUMMARY

Data Scientist and Machine Learning Engineer with 2+ years of experience developing and deploying end-to-end AI solutions for cloud infrastructure and supply chain optimization. Expertise in Python, SQL, and TensorFlow to build predictive models and scalable data pipelines that enhance operational efficiency and drive data-informed decision-making. Proven ability to lead cross-functional projects from concept to production, delivering measurable improvements in forecasting accuracy, cost reduction, and system performance.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, Java, C++, C
- **ML & AI:** Supervised & Unsupervised Learning, Neural Networks, NLP, Predictive Modeling, Model Deployment
- **Data Science Libraries:** Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Keras, Hugging Face, OpenCV
- **Cloud & DevOps:** Oracle Cloud Infrastructure (OCI), AWS, Azure, Docker, Git, CI/CD, Kubernetes, MLflow
- **Data Visualization:** Power BI, Tableau, Matplotlib, Seaborn, Plotly, Excel
- **Databases:** MySQL, PostgreSQL, MongoDB, Oracle Database, MS Access
- **Software Development:** REST APIs, Agile Methodology, Software Testing, Debugging
- **Mathematical Foundations:** Statistics, Probability, Linear Algebra, Calculus, Optimization

PROFESSIONAL EXPERIENCE

Dell Technologies – Chicago, IL

Jul 2025 – Present

Data Scientist

- Developing machine learning models with Python and TensorFlow, improving supply chain forecasting accuracy by 25%
- Engineering scalable data pipelines using SQL and PySpark, reducing data processing time by 30%
- Creating interactive Power BI dashboards that enhance business intelligence and reporting capabilities
- Implementing FastAPI RESTful APIs to serve ML models, reducing latency by 40%
- Collaborating with cross-functional teams to productionize and scale data solutions

Oracle Corporation – Jalandhar, India

Nov 2021 – Jul 2023

Data Scientist

- Enhanced cloud infrastructure performance using ML models, boosting resource allocation efficiency by 25%
- Engineered real-time data pipelines utilizing Oracle Cloud Infrastructure, reducing data latency by 40% for analytics
- Created predictive maintenance solutions for database systems, decreasing unplanned downtime by 30%
- Implemented automated anomaly detection systems that enhanced security monitoring and threat response capabilities
- Collaborated with engineering teams to successfully integrate machine learning solutions into Oracle cloud services

PROJECTS

Business Intelligence Analytics Dashboard | Power BI, SQL, DAX, Excel

- Developed Power BI dashboard driving 10% sales growth through data-driven revenue insights
- Streamlined data integration from multiple sources using DAX Studio, improving dashboard performance by 5%

Image Encryption Security Classifier | Python, SVM, XGBoost, Scikit-learn

- Achieved 99% classification accuracy for encryption strength using an improved XGBoost model
- Reduced security assessment time from minutes to seconds while maintaining high reliability

Hospital Management System | JavaScript, HTML/CSS, SQL, React

- Developed full-stack application reducing manual operations by 40% through automated workflows
- Improved database query performance by 25% via normalization and refined SQL procedures

EDUCATION

Bradley University – Peoria, IL

Aug 2023 – May 2025

Master of Science in Computer Science

Coursework: Database Management Systems, ML, Data Science, Python, Power BI, Statistics, Big Data, Data Visualization

Lovely Professional University – Jalandhar, India

Jun 2019 – May 2023

Bachelor of Technology in Electronics and Communication Engineering

Minor: Machine Learning

CERTIFICATIONS

- Power BI Data Analytics – Codebasics
- SQL for Data Analysis and Data Science – Udemy
- IBM Machine Learning – Coursera
