

HARSHADA BAGAL

Dallas, TX | 914-531-7012 | hbagal99@gmail.com | linkedin.com/in/harshadabagal | github.com/harshadaabagal

Summary

Results-driven **Data Engineer** with **3+** years of **Healthcare** experience in **QNXT**, specializing in **Member Enrollment, Claims, and Provider** data. Proficient in **Python, SQL, SSIS, Power BI, Tableau, AWS, Snowflake** and **EDI (834, 837)** with strong **HIPAA, Medicare/Medicaid, and CMS** knowledge

Professional Experience

Data Engineer – Gainwell Technologies – Dallas, TX

Jan 2025 - Present

- Collaborated with the **Ohio Department of Medicaid (ODM)** and authored 35+ **SQL** scripts to extract and validate member data (eligibility, enrollment, claims adjudication, coverage, provider), improving processing efficiency by 30%
- Developed, enhanced, and maintained 15+ **SSIS** ETL packages with **SFTP** integrations, resolving 30+ data quality issues and ensuring data integrity across 100M+ Medicaid records sourced from **QNXT**'s transactional database
- Created ETL specifications and **data mapping** documents to support full pipeline development; performed in-depth analysis using **SQL**, data models, element dictionaries, and schema definitions
- Resolved 50+ **production support** tickets on **ANSI X12 834/837 EDI** transactions, ensuring **HIPAA** compliance and improving member eligibility accuracy across demographics and enrollment feeds using ETL and **SQL**
- Adhered to **Git/Azure DevOps** best practices, including branching strategies and code reviews, resulting in a 30% increase in feature delivery speed with zero critical regressions

Data Engineer Co-op – Global Infrastructure Partners – New York, NY

May 2023 - Dec 2023

- Developed a **Python**-based **ETL** pipeline to automate **financial data** ingestion from **AWS S3** into **Snowflake**, enhancing investor data accessibility and reducing manual effort by 50%
- Delivered 15+ advanced **SQL**-based reports **using window functions, CTEs, and joins** to replace **Excel** workflows—saving 150+ hours annually in fund performance tracking
- Built a **Tableau** dashboard to track key performance indicators (KPIs) like portfolio valuation and ROI, enabling portfolio managers to make informed decisions and reducing reporting errors by 20%

Data Engineer – Aress Softwares – Nashik, India

Jan 2020 - Aug 2022

- Partnered with business stakeholders to gather requirements and develop end-to-end **SQL** and ETL solutions **claims, membership, and provider** data, delivering timely, actionable insights in a managed care environment
- Wrote and optimized 30+ complex **SQL** scripts to process 50K+ new member records/month in **QNXT**, supporting **downstream processes** such as ID card and welcome kit generation; performed **database backups** and **restores**
- Built and scheduled **SSIS** packages to extract and validate provider and **pharmacy** data from **QNXT**, delivered vendor-specific files daily via **SFTP** to credentialing and PBM partners with 99% accuracy
- Developed **Power BI** dashboards with **data modeling** and **DAX** to track daily **QNXT** claim approvals, denials, and rejection reasons, enabling proactive issue resolution and reducing denial-related revenue loss by 15%
- Closed 70+ incident tickets in **agile** sprints by conducting **root cause analysis**, debugging data anomalies, and optimizing pipelines through **CI/CD**-driven fixes; documented resolutions on **SharePoint** for cross-team visibility

Education

Northeastern University

Sep 2022 - Dec 2024

Master of Science in Information Systems

Boston, MA

Vishwakarma Institute of Technology

Aug 2017 - May 2020

Bachelor of Technology in Computer Engineering

Pune, India

Technical Skills

Languages: Java, Python, SQL, PySpark, Spark SQL, HTML, CSS

Databases: MySQL, Oracle, Microsoft SQL Server, NoSQL, Snowflake, MongoDB, PostgreSQL

ETL Tools: SSIS, Talend, Alteryx, Google Cloud Dataflow, Google Cloud Data Fusion, Azure Data Factory

AWS Services: EC2, S3, Athena, Glue, RDS, Redshift, Lambda, Quickstart, IAM

Analytical Tools: SSRS, Power BI, Tableau, Looker, MS Excel, Salesforce, Jupyter Notebook, Visio

Certifications: Google Certified Data Analytics Professional, Alteryx Designer Core Micro-Credential
