

Harshavardhan Garinti

Business Data Analyst

+1 (913) 999-3123 | hgarinti@gmail.com | [LinkedIn](#)

SUMMARY

A seasoned Data Analyst with 4+ years of experience in healthcare and IT, specializing in SQL, Python, R, Tableau, Power BI, AWS, and Snowflake. Expertise in big data processing, statistical modeling, and ETL pipeline development to enhance operational efficiency (15%), reduce costs (30%), and improve data accessibility (18%). Proven ability to optimize workflows, collaborate with cross-functional teams, and maintain technical documentation (FRD, BRD, SRS) for seamless data solution implementation.

KEY SKILLS

Healthcare Analytics:	Patient data management, EHR/EMR systems (e.g., Epic, Cerner), HL7, FHIR, HIPAA compliance, Population health analysis, Risk stratification
Data Analysis Tools:	SQL, Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), R (ggplot2, dplyr), Tableau, Power BI, Looker, Excel (Advanced)
ETL Tools:	Alteryx, SSIS
Cloud Platforms:	AWS
Statistical Methods:	Regression, Cluster Analysis, Predictive Modeling, A/B Testing, Hypothesis Testing, Time Series Analysis
Frameworks & Documentation:	SDLC, Agile, Waterfall, FRD, BRD, SRS, UML
Database Systems:	MySQL, SQL Server, PostgreSQL
Programming & Scripting:	VBA, Shell Scripting
Visualization Tools:	Tableau, Power BI, QlikView
Other Tools:	Spark SQL, JIRA, Git
Healthcare-Specific Skills:	ICD-10 coding, CPT codes, Utilization management, Clinical quality measures, Claims processing, Revenue cycle analytics

EXPERIENCE

HCA Healthcare

USA

Business Data Analyst

Jan 2024 – Present

- **Data Analysis & Optimization:** Utilized SQL and Python to analyze patient data, optimize workflows, and reduce patient wait times by 20% through data-driven insights.
- **Data Visualization & Reporting:** Designed interactive dashboards in Tableau and Power BI, providing real-time insights on bed occupancy, patient throughput, and clinical outcomes to support decision-making.
- **ETL & Data Engineering:** Automated healthcare data workflows using Databricks and Spark SQL, integrating EHR/EMR data (Epic, Cerner) across AWS S3 and Snowflake for accuracy and consistency.
- **Predictive Analytics & Compliance:** Conducted predictive modeling and time series forecasting to optimize staffing, reduce readmission rates, and decrease labor costs by 12%, while ensuring HIPAA compliance.
- **Business & Revenue Cycle Support:** Collaborated with stakeholders to streamline reporting, developed risk stratification models, and analyzed claims data to improve billing accuracy and reimbursement rates.

Aplus Datalytics

India

Business Data Analyst

Jan 2020 – Jul 2022

- **Project Management & Process Improvement:** Spearheaded projects using SDLC and Waterfall methodologies, increasing on-time delivery by 25% and reducing rework cycles by 15% through structured execution.
- **Data-Driven Decision Making:** Designed interactive Power BI dashboards and conducted SWOT and risk analyses, enhancing strategic planning and decision-making effectiveness by 30%.
- **Stakeholder Collaboration & Requirements Gathering:** Engaged with clients to gather business requirements, translated them into technical specifications, and developed custom reports and dashboards to improve operational efficiency.
- **Data Analysis & Workflow Automation:** Utilized SQL, Python, and Excel (VLOOKUP, HLOOKUP) to perform data validation, cleansing, and analysis, ensuring data accuracy and reliability. Developed ETL pipelines using Talend and Alteryx to automate workflows.
- **Cloud & Compliance Management:** Leveraged AWS cloud solutions for scalable and secure data workflows, maintained technical documentation (FRD, BRD, SRS), and ensured alignment with business and regulatory standards.

EDUCATION

University of Central Missouri

USA

Master in Data Science

May 2024

Gandhi Institute of Technology and Management

India

B.Tech in Electronics and Communication Engineering

Apr 2021
