OBJECTIVE

Detail-oriented Industrial Engineering graduate student with hands-on experience in inspections, audits, and process optimization. Seeking a Quality Control Auditor/Inspector role to leverage skills in inspection planning, documentation, and compliance in a manufacturing environment.

EDUCATION

MS, Industrial Engineering – University of Houston, Houston, TX — Expected Dec 2025

Relevant Coursework: Statistical Process Control, Probability & Statistics for Engineers, Computer Integrated Manufacturing, Production Planning & Inventory Control, Supply Chain Strategies

B.Tech, Mechanical Engineering – Velagapudi Rama Krishna Siddhartha Engineering College — May 2023

RELEVANT EXPERIENCE

Student Worker – Auditings & Decisions Team – University of Houston Admissions Department (Jan 2024 – Present)

- Assisted in auditing and analyzing 300+ student transcripts to ensure compliance with UH academic requirements.
- Supported the decision-making process for admissions eligibility based on university standards.
- Collaborated with the auditing team to streamline document verification processes, improving efficiency.

Industrial Engineering Intern – Lakshmi Infrastructure & Developers Pvt. Ltd., India (Jul 2023 – Dec 2023)

- Conducted inspection and auditing of project layouts to ensure adherence to safety and operational standards.
- Supported documentation of resource flow, material handling, and layout verification.
- Assisted in calibration and validation of equipment layouts, ensuring operational compliance.
- Collaborated with cross-functional teams to address nonconformance issues and improve quality processes.

Process Optimization Intern – Indian Railways, Vijayawada (Aug 2022 – Nov 2022)

- Performed audits and inspections of rail maintenance workflows and engine service processes.
- Documented inspection findings to support preventive maintenance and quality improvement.
- Participated in traceability checks for track assets and maintenance operations.
- Engaged in team discussions to address quality issues and ensure operational compliance.

TECHNICAL SKILLS

Quality Tools: Lean Six Sigma (Green Belt), Statistical Process Control, Work System Design, Minitab

Software: AutoCAD, CATIA, SolidWorks, Solid Edge, MATLAB, MS Excel (advanced), Word, PowerPoint

Other: Strong communication, audit documentation, organizational skills

CERTIFICATIONS

- Lean Six Sigma – Green & White Belt
- Work System Design – NPTEL
- AutoCAD – Bim Grafx
- Minitab – Simplilearn
