WORK EXPERIENCE

Yelp

Remote, NY

Retention Analyst

March 2025- Current

- Analyzed large datasets using Tableau, Excel, to uncover trends in customer retention, engagement, and churn; developed predictive models to identify at-risk advertiser segments.
- Created and managed dynamic dashboards and performance trackers that visualized key KPIs, cohort behaviors, and campaign ROI, empowering marketing and product teams to take targeted action.
- Translated complex data into actionable insights, delivering recommendations that shaped advertiser lifecycle campaigns.
- Leveraged Salesforce and internal CRM systems to track campaign effectiveness, engagement trends, and prioritize outreach based on risk scoring models.
- Partnered with marketing, data science, and product teams to optimize retention programs, contributing to a 25% increase in advertiser retention.

Paychex

Plainfield, NJ

Human Capital Management Consultant

June 2024- March 2025

- Leveraged advanced data analytics to identify trends, opportunities, and key performance metrics, driving a 20% increase in market share and contributing to the optimization of sales strategies.
- Presented data insights and visual reports to internal stakeholders and channel partners, enabling data-informed decisions that drove 15% growth in partner-driven revenue.
- Utilized Salesforce CRM and analytics tools to manage and analyze a portfolio of 150 accounts, tracking pipeline health, forecasting revenue, and generating insights to improve sales performance and decision-making.
- Applied data segmentation techniques to classify prospects by key variables, such as industry and company size, resulting in a 10% improvement in lead conversion rates and overall sales efficiency.
- Utilized customer engagement data from email campaigns, website interactions, and client meetings to develop data-driven sales strategies, achieving an increase in client meetings and a 15% higher close rate.

Citizens Bank

Syosset, NY

Universal Banker

October 2023- June 2024

- Utilized client data to deliver tailored financial strategies, driving a 10% uplift in satisfaction.
- Led in-depth analysis of consumer behavior trends, driving a 15% growth in cross-selling opportunities
- Managed personal portfolio of \$25 million through pivot tables. Utilized formulas such as Vlookup, Xlookup to easily navigate through lists of clients.
- Tracked personal performance, analyzing key performance indicators (KPIs) such as client acquisition rates, retention rates, and revenue generated per client, to evaluate effectiveness and identify areas for improvement.

Al Fattah Contractors

Ronkonkoma, NY

Project Manager

July 2021- January 2023

- Served as primary client liaison, overseeing end-to-end project delivery while managing competing deadlines across multiple initiatives.
- Created and maintained advanced Excel project plans, incorporating budget tracking, timelines, resource allocation, and expense analysis.
- Analyzed historical client data to identify trends and proactively recommend financial solutions aligned with future needs.
