WORK HISTORY

Elevated Sports Ventures

February 2023 to Present

Junior Data Analyst - Part Time

- I analyze complex and large data sets using Google Sheets and Microsoft Excel for data cleaning, statistical tools, and techniques to identify patterns and provide actionable recommendations.
- Continuously monitor data quality, accuracy, and completeness, and recommend improvements to data collection and processing systems as needed.
- Collaborate with cross-functional teams, including business stakeholders, data engineers, and software developers.
- Maintain accurate and detailed documentation of data analysis processes, methodologies, findings, and communicate results effectively.
- Work independently and manage multiple projects simultaneously, while also collaborating effectively with others to achieve team goals.

AirGas

February 2020 to Present
