WORK EXPERIENCE

Filament Consulting Services

Bangalore, India

Junior Backend Developer

Mar 2022 - Oct 2023

- Designed RESTful APIs, enhancing backend functionality and reducing system response time by 25%.
- Wrote unit tests using JUnit, increasing code coverage to 75%.
- Utilized Docker to containerize applications, simplifying deployments and saving 15% of deployment time.
- Assisted in writing SQL queries, optimizing database interactions by 20%.
- Participated in peer code reviews, enhancing code quality and reducing bugs by 10%.

EDUCATION

Pennsylvania State University

Middletown, PA

Master's in business administration

Graduation Date: May 2025

Sree Vidyanikethan Engineering College

Tirupati, India

Bachelor of Technology, Computer Science

Graduation Date: Apr 2018

PROJECT EXPERIENCE

Business Analytics: Median Days on the Market

Denver, Colorado

Project Lead

Oct 2024 - Dec 2024

- Achieved an 83% accuracy rate in forecasting factors that influence median days on the market of house properties in Denver Metropolitan area by deploying a machine learning model.
- Managed data integrity by handling missing values and encoding categorical variables, enhancing data quality by 33%. Conducted experiments with regression algorithms to identify the most suitable approach.
- Identified and analyzed key factors influencing median days a property stays in the market before it gets sold.

Retail Sales Analysis SQL Project

Middletown, PA

Data Analyst

Jun 2024 - Jul 2024

- Designed and developed a SQL database for analyzing retail sales data, focusing on customer demographics, product performance, and sales trends to optimize decision-making processes.
- Executed complex SQL queries and joins to uncover actionable insights, including identifying top-performing products, customer purchase patterns, and monthly sales growth.
- Improved data accuracy by 20% through rigorous data cleaning techniques, including handling null values and standardizing inconsistent entries across large datasets.

Finance KPI using Power BI

Middletown, PA

Data Analyst

Jun 2024 - Jun 2024

- Conducted data cleaning and transformation using Power Query, ensuring data consistency and accuracy across multiple datasets before analysis.
- Implemented advanced DAX functions and calculated columns to derive key business insights, such as profit margins and revenue growth, increasing report accuracy by 25%.
- Optimized data connections and modeling by integrating multiple data sources, including Excel, SQL databases, and cloud services, ensuring seamless data updates.
- Devised interactive Power BI dashboards to visualize customer demographics and sales trends directly contributed to improved data-driven decision-making, as evidenced by the 10% increase in quarterly sales performance.
