EDUCATION

Rutgers University, School of Arts and Sciences

New Brunswick, NJ

B.S. Computer Science | GPA: 4.0 | Honors: Summa cum laude

May 2024

EXPERIENCE

Transformity (YC S23)

New York City, NY

Software Engineer Intern

May 2024 – December 2024

- Boosted SaaS engagement by 50% by building a cross-platform mobile app for a liquor store POS system using React Native, Expo, and TypeScript, expanding platform accessibility
- Optimized app performance with pagination, debouncing, and async storage caching, reducing load times by 20%
- Used CI/CD pipelines to create, test, deploy, and maintain RESTful APIs developed with Java, SQL, and Spring Boot, introducing 3 new features and resolving critical bugs in microservices
- Collaborated with 3 teams to align mobile and backend development, enhancing backend integration and supporting business-driven feature releases
- Designed a responsive, native-like UI with React Native Reusables and integrated Firebase login, enabling mobile access and supporting 95% store adoption within 3 months
- Automated end-to-end testing with Playwright for 5 features, strengthening release reliability and catching critical bugs earlier in the development cycle

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL, TypeScript

Certifications: AWS Certified Cloud Practitioner

Frameworks/Tools: React Native, Tamagui, Native Wind, Expo, React Native Reusables, React, Next.js, MongoDB, MySQL, HTML, CSS, Git/GitHub, Agile/Scrum, Linear, Swagger/OpenAPI, Firebase, Playwright

PROJECTS

Threads Clone | *React, Next.js, TypeScript, MongoDB*

September 2023 – October 2023

- Built a Threads app clone with features such as user authentication, profile management, file uploads, and real-time event listening
- Implemented server-side rendering, optimizing performance and user experience

Stock Data Viewer | *Python, Tkinter, Matplotlib, Seaborn*

August 2023

- Developed a application retrieving historical stock data using Alpha Vantage API, and visualizing trends through graphs
- Added a news aggregation feature within the application, utilizing Stock Data API to fetch and display current stock-related news in a user-friendly format

COMMUNITY & LEADERSHIP

BAPS Swaminarayan Temple

Robbinsville, NJ

Youth Activities Organizer

September 2016 – Present

- Guided a team of high school students to conduct weekly religious seminars for 20-30 youths, focusing on instilling traditional Hindu and BAPS values as a moral foundation
- Facilitated events for over 400 youths, such as Kids' Diwali Celebration and Youth Sporting Events
- Coordinated with 4-5 departments to plan and execute community activities encouraging youth involvement

Akshardham Operations

Robbinsville, NJ

Safety Field Team Lead

May 2022 – August 2023

- Collaborated with and led a team of 10 volunteers in conducting safety inspections of a construction site, identifying and mitigating 100+ potential hazards to ensure a safe working environment
- Trained groups of volunteers of different backgrounds biweekly on proper equipment usage and worksite hazards, reducing minor injuries by 50%
- Networked with OSHA officials to ensure that safety regulations on site were adequately met
