Jun. 2024

PROFESSIONAL EXPERIENCE

Audience Genomics (Aggie's)

Rochester, New York

Data Analytics & Customer Insights Intern | Data Cleaning, Excel, SQL, Visualization, CRM Analytics

May 2025– Present

- Analyzed 500+ posts and 300+ records using SQL, Python, and Excel to uncover engagement drivers, churn risk, and revenue-impacting behaviors, informing customer strategies projected to improve annual recurring revenue by 13%.
- Built 10+ interactive dashboards in Excel, Sheets, and Data Studio to visualize KPIs, customer journeys, and trendlines, enabling leaders to track adoption and implement strategies that boosted platform utilization by 15%.
- Conducted predictive cohort modeling and benchmarking against competitors, identifying 18% engagement gaps versus industry standards, and recommended customer-centric initiatives projected to reduce churn and sustain long term client satisfaction.
- Presented analytics-based insights to leadership, identifying retention gaps and behavioral drawbacks through churn analysis, which informed data-driven strategies that improved engagement by 14%, reduced churn by 9%, and strengthened long-term loyalty.

Simon Vision Consulting, Simon Business School

Rochester, New York

Business & Insights Analyst | Tableau, SQL, R, Python, Jupyter Notebook, Excel, ServiceNow, Statista

Sept. 2024 – Dec. 2024

- Researched 10 U.S. cities using demographic, economic, and industry data, designing a prioritization framework that identified Raleigh and Boise as top markets, enabling leadership to target regions representing projected \$750K revenue expansion potential.
- Conducted structured interviews with contractors, uncovering digital adoption gaps and ROI concerns, synthesized findings into insights that informed tailored go-to-market strategies projected to improve client lead generation efficiency by 18% in Raleigh.
- Built financial projection models across base, best, and worst-case scenarios, delivering quantified insights showing 294% ROI and \$301K NPV, recommended Raleigh entry, aligning customer demand, market potential, and profitability for long-term growth.

Nagpur Municipal Corporation (NMC), RBU

Nagpur, India

Research and Operations Intern | Statistics, Excel, Alteryx, Power BI, Tableau, Quantitative Analytics

Jan. 2024 – May 2024

- Built automated Power BI and Tableau dashboards analyzing taxpayer data across 10 municipal districts and 38 councils, flagging anomalies in 10,000+ monthly records impacting compliance, customer trust, and financial reporting accuracy.
- Developed standardized frameworks for tax collection, conducted workshops, and enforced documentation standards, improving financial and operational data integrity by 90% and ensuring reliable insights critical for transparency, governance and assurance.

Papers Combines

Nagpur, India

Data & Logistics Intern | Supply Chain and Logistics, SQL, Power BI, Analytics

May 2023 – Sept. 2023

- Managed lifecycle of 25+ supply-chain change requests, validating readiness, coordinating schedules, and conducting post-implementation analyses that reduced operational disruptions while maintaining service reliability and supplier-customer trust.
- Conducted quantitative cost impact analysis on vendor contract adjustments, drafting executive-level insights and recommendations that secured \$12K quarterly savings, streamlined logistics processes, and improved vendor-customer partnership alignment.

EXPERIENTIAL LEARNING

AI Feedback Pipeline, E-Commerce Company

Rochester, New York

Project Manager | OpenAI API, NLP, LLM, LangChain, AI/ML, Python, Sentiment Analysis

Oct. 2024 – Jan. 2025

- Built AI-driven sentiment analysis pipeline using OpenAI API, LangChain, and SQL, reducing client support turnaround times by 30% and providing timely insights into customer experience, service issues, and satisfaction drivers.
- Designed Tableau dashboards visualizing review trends and sentiment clusters, increasing stakeholder visibility into recurring product issues, reducing customer complaints by 45%, and enabling rapid resolution through customer-centric action plans.

AtliQ Grands Hotel

Nagpur, India

Project Manager | Python, MySQL, KPI's, ETL Processes, DAX, MS Excel, Power BI, Tableau

Sept. 2023 – Dec. 2023

- Standardized KPI-driven service delivery dashboards across 5-member team, improving report timeliness by 30% and ensuring reliable insights for decision-making on customer satisfaction, operations, and guest experience improvements.
- Measured system performance through Power BI dashboards tracking request volumes and resolution cycles, enabling prioritization of enhancements and ensuring service improvements aligned with customer-centric metrics.
