Summary

Data & Business Analyst with 2.5+ years of experience turning 'noisy' data into clear solutions. Validated \$16M SROI, qualified 300+ RFPs, and achieved 109% of program goals. Documented a 91.94% satisfaction rate across 259 graduates through survey data analysis while reducing production waste by 10% (saving \$40K). Skilled in removing technical jargon to find root causes using SQL, Power BI, and Python to align data with strategic goals.

Technical Skills

Data & Technical: SQL, Python, R, Databricks, GCP, Database Design & Optimization.

BI & Analytics: Power BI, Tableau, Advanced Excel, Statistical Analysis, A/B Testing.

Strategy & Ops: Salesforce, SharePoint, JIRA, Confluence, Requirements Gathering, Stakeholders Management, UAT, Visio.

Experience

Data Specialist | Fathers and Families Support Center | May 2024 - Present | St. Louis, MO

- Validated a 4.5x Social Return on Investment (SROI) by calculating a \$16M community impact from a \$3.5M annual operating budget.
- Verified a 109% enrollment target achievement while documenting a 91.94% satisfaction rate across 259 graduates (2024).
- Governed data integrity for 22,000+ fathers and 53,000+ children, managing the historical and active records for the agency.
- Optimized agency workflows by 15% by standardizing documentation and eliminating 6 redundant forms across multiple departments.
- Monitored program efficacy benchmarks, specifically a 3% recidivism rate for graduates compared to the 35% Missouri state average.
- Mitigated financial risk and ensured audit compliance by generating and validating regulatory reports for ARCHS and TANF programs.

Proposal and Data Specialist (Contract) | Charter Communications | Oct 2023 - Apr 2024 | Ballwin, MO

- Qualified 300+ potential enterprise clients in 6 months by filtering 1,000+ RFPs for technical and federal program eligibility.
- Secured 90% federal subsidies for contracts by validating technical site data and collaborating with sales and engineering teams.
- Optimized resource allocation by vetting RFP feasibility against service footprint to prevent bidding on ineligible projects.
- Eliminated reporting bottlenecks by streamlining Salesforce workflows to track regional participation and identify data gaps.

Quality Control Analyst (Contract) | Argo Products Company | Jun 2023 - Oct 2023 | St. Louis, MO

- Saved \$40,000 in annual material costs by diagnosing a root-cause wire density issue that reduced total production waste by 10%.
- Validated 100% inventory accuracy by governing historical databases and monitoring raw material usage against output.
- Simplified complex production metrics into actionable reports for floor managers, removing "data noise" to improve daily output.

Projects

Hospital Performance & ROI Analytics Case Study | Power BI, DAX ([Link](#))

- Identified \$207M in potential savings by establishing top-quartile performance benchmarks for 2,496 hospitals.
- Diagnosed a 242% quality variation to pinpoint Pneumonia as a \$1.7B annual cost driver.
- Built interactive dashboards with 15+ DAX measures to prioritize high-ROI clinical interventions.

Hospital Database Management System Design | SQLite ([Link](#))

- Engineered a 3NF normalized database with 10 tables ensuring 100% referential integrity.
- Diagnosed a 33.5% revenue collection gap in Oncology using multi-table JOINS and variance analysis.
- Optimized resource planning by identifying a 6% engagement decay in non-critical patient appointments.

Education

Maryville University of Saint Louis | Bachelor of Science, Data Science | May 2023

- Minor in Business Administration** | Cum Laude | Dean's List (All Semesters)
- Awards:** International Student Leadership Award (2023)
- CFA Institute Research Challenge:** Analyzed company valuation and spoke with CEO/IR teams.
- CAS (Casualty Actuarial Society) Case Competition:** Performed predictive modeling and risk analysis for insurance datasets.

Certifications

- Business Intelligence:** Power BI Essential Training.
- Cloud & Data:** Microsoft Azure Fundamentals (AZ-900), AI Fundamentals (DataCamp).
- Process Improvement:** Six Sigma White Belt.
