WORK EXPERIENCE

Goldman Sachs

USA

Data Analyst

Aug 2024 - Present

- Spearheaded the development of a comprehensive data governance framework, resulting in a 40% enhancement in data integrity across five major client databases and reducing data retrieval times by 30% through streamlined access protocols.
- Executed data governance initiatives that improved data integrity across multiple databases, achieving a compliance rate of 98% with internal standards and reducing errors in reporting by 30%.
- Orchestrated the migration of legacy systems to cloud-based solutions on AWS, resulting in a 30% reduction in operational costs while maintaining a robust infrastructure for handling over 500TB of data across multiple databases.
- Trained cross-functional teams on best practices for utilizing data visualization software, boosting user adoption rates by over 60% and improving overall analytical capabilities within the company.
- Developed and optimized ETL processes that enhanced data retrieval efficiency by 40%, enabling real-time analytics for over 100 users across multiple departments.

IBM

India

Data Analyst

Jan 2020 - Jul 2022

- Spearheaded the implementation of Agile methodologies across a team of 12 analysts, enhancing project delivery speed by 40% and reducing time-to-insight from weeks to days, ultimately improving stakeholder satisfaction rates by 30%.
- Executed advanced data visualization projects using Tableau and Power BI, translating complex datasets into actionable insights that led to a 30% increase in stakeholder engagement during quarterly strategy sessions.
- Conducted rigorous audits and validations on datasets, resulting in the identification and rectification of discrepancies that enhanced overall data reliability by 30%, positively impacting decision-making processes.
- Analyzed and optimized complex SQL queries, resulting in a 40% reduction in data retrieval time across multiple databases, enhancing reporting efficiency for over 100 users.
- Developed and optimized algorithms for data extraction that improved processing time by 40%, enabling the analysis of weekly trends across multiple departments and enhancing decision-making efficiency.

PROJECT EXPERIENCE

University of Texas at Arlington

Arlington, TX

Data analyst volunteer

May 2023 - Dec 2023

- Spearheaded the management of over 1,500 students on an educational platform, driving a remarkable 60% growth in user engagement within just six months, leading to increased participation in online learning modules by 40%.
- Collaborated with cross-functional teams to implement data-driven strategies that improved retention rates by 40%, effectively reducing churn and maximizing user satisfaction across the educational platform.
- Developed and implemented targeted outreach strategies based on data insights, resulting in a 45% rise in active users and improving overall satisfaction scores by 25%.

SKILLS

Methodology: Agile, Scrum, Data Governance, SDLC

Languages: Python, SQL, R

Data Analysis & Manipulation: NumPy, Pandas, SciPy, Scikit-Learn

Data Visualization: Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP, Data Analysis)

Data Analytics Techniques: Data Warehousing, Data Cleansing, Data Integration, Data Pipelines, Data Integrity

Databases & Data Management: MySQL, SQL Server, PostgreSQL, NoSQL

Machine Learning: Linear Regression, Logistic Regression, Random Forest, XGBoost, K-Means, KNN, Neural Networks

Cloud Computing & Big Data: AWS (S3, RDS, Lambda), Azure

Version Control & Collaboration Tools: Git, GitHub, Bitbucket, Jira, Confluence

EDUCATION

University of Texas

Arlington, TX

Masters of Science in Information Systems

Graduation Date: May 2024

University of Mumbai

Mumbai, IN

Bachelor of Engineering in Information Technology

Graduation Date: May 2022
