

Hiranmai Suryadevara

Supply Chain Analyst

Chicago, IL | +1 (860)-869-5511 | hiranmais718@gmail.com | [Linked In](#)

SUMMARY

Supply Chain Analyst with 3+ years of experience improving demand forecasting, inventory optimization, and vendor performance in fast-paced environments. Skilled at turning complex ERP and logistics data into actionable KPIs that drive better replenishment, shorten lead times, and raise on-time delivery performance. Experienced in ERP systems (SAP S/4HANA, Oracle SCM) and analytics tools (Power BI, Tableau, AWS QuickSight) to support both day-to-day operations and strategic S&OP planning. Known for bridging the gap between technical teams and business stakeholders to deliver measurable improvements in service levels, cost efficiency, and supply chain resilience.

SKILLS

- **Supply Chain Operations:** Demand Forecasting, Inventory Optimization, Inventory Turns, Replenishment, PO Management, Vendor SLAs/OTIF Tracking, Lead Time Reduction, Safety Stock Modeling, KPI Monitoring, Logistics Optimization, Order Management, Procurement Support, Supply Chain Optimization, Inventory Control, 3PL Collaboration
- **ERP & Data Platforms:** SAP S/4HANA (MM, PP, MRP Live), Oracle SCM, NetSuite, Snowflake, Redshift, Master Data Management
- **Analytics & Reporting:** Power BI, Tableau, AWS QuickSight, Advanced Excel (VBA), SQL, Python, Data Validation, Data Cleansing
- **Data Engineering & Automation:** AWS Glue, dbt, Apache Spark, Airflow, Data Governance, REST APIs
- **Compliance:** HIPAA, PCI, Lean Sixsigma

EXPERIENCE

Avnet, USA

July 2024 – Present

Supply Chain Analyst

- Built automated ETL pipelines (AWS Glue, dbt, Snowflake) to bring together ERP, procurement, and logistics data, cutting reporting time by 70% and freeing planners to focus on decision-making rather than manual data pulls.
- Designed AWS QuickSight dashboards to track inventory turns, supplier OTIF, lead times, and fill rates tools now used daily by replenishment teams to reduce stockouts by 12% during high-demand periods.
- Introduced safety stock and order planning models in SAP S/4HANA, helping maintain service levels while avoiding excess holding costs.
- Partnered with procurement and order management teams during vendor changes to fine-tune PO policies (MOQ, ROP/EOQ) and worked closely with 3PL providers to shorten freight delays and improve delivery consistency.

Cigna Healthcare, Bloomfield, CT

June 2022 – June 2024

Supply Chain Analyst

- Created real-time workflows in Spark and Airflow to flag replenishment exceptions, vendor SLA breaches, and backorders giving planners immediate visibility to act before issues escalated.
- Developed Power BI dashboards that tracked procurement and logistics KPIs such as order cycle time, fill rate, and supplier compliance, which helped raise OTIF scores across key vendor accounts.
- Provided procurement support through deep-dive inventory control analysis and vendor performance reviews, enabling more informed contract negotiations.
- Deployed Terraform to automate infrastructure setup for analytics environments, ensuring scalability for compliance reporting and operational reviews.
- Standardized KPI reporting ahead of quarterly S&OP meetings, which improved cross-functional discussions between planning, sourcing, and logistics teams.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

EDUCATION

University of New Haven, West Haven, CT

M.S. in Data Science

August 2021 – December 2022

Vignan University, Andhra Pradesh, India

B.S. in Computer Science

June 2017 – May 2021
