SUMMARY OF QUALIFICATIONS:

- Strong knowledge of both programming languages and hardware systems.
- Served as the presenting lead and created visual insights using Excel charts at SocialTech Labs.
- Experienced in developing AI-powered image generation features with backend data management to enhance machine learning models.
- U.S. permanent resident; does not require sponsorship.

INTERNSHIP EXPERIENCE:

SocialTech Labs, Inc

Sep 2024 - Dec 2024

Frontend Software Engineer / Mobile App Developer Intern

- Created AI reaction and audio recording buttons, along with arrow buttons to expand app features.
- Created a Google Form for feedback collection, presenting insights every three weeks.
- Managed GitHub workflows, including branch pushes, pulls, and code merges.

YesTech, Corp

Dec 2024 - May 2025

Software Engineer / Backend Development / AWS

- Enabled machine learning model training for the AI-generated post feature, improving image generation accuracy.
- Installed and configured the Aura widget to allow users to access posts directly from the home screen.
- Developed and maintained RESTful APIs and performed database operations.

Swing Phi Inc

June 2025 - Oct 2025

Full-Stack Developer Intern

- Designed the onboarding page using React (JSX + CSS) and TypeScript for layout and styling.
- Built RESTful APIs to connect backend data to the frontend.
- Contributed to the backend system by integrating SQLite and writing Python scripts.

SKILLS AND ABILITIES:

- **Programming Languages:** Python, Java, Swift, JavaScript (ES6+), SQL, MATLAB, HTML5, CSS3, SystemVerilog
- **Cloud & DevOps Tools:** AWS (EC2, S3), Git/GitHub, RESTful API, Google Workspace, Figma

EDUCATION:

Bachelor of Science, Electrical and Computer Engineering

[Rutgers University–New Brunswick](#)

Jan 2024 - May 2026 (Expected)

GPA: 3.72
