PROFESSIONAL SUMMARY

Recent Information Technology graduate with hands-on experience in data analysis, system troubleshooting, and technical support. Google Data Analytics certified, with practical skills in SQL, Excel, Tableau, and Python. Strong foundation in networking, computer systems, and data management, with a proven ability to solve problems and learn new technologies quickly. Eager to contribute to a dynamic IT team and grow in a technical support or analyst role.

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL, R
- **Data Tools:** Excel (PivotTables, VLOOKUP), Tableau, RStudio, Pandas
- **Web Technologies:** HTML, CSS
- **Tools & Platforms:** Autopsy, FTK Imager, Microsoft Office

HRISHIKESH PATEL

EDUCATION

Bachelor of Science: Information Technology
University of North Florida - FL, 12/2024

Google Data Analytics Certificate
Coursera, 06/2025

PROJECTS

- Cleaned data with **SQL** using **Python (Pandas, Matplotlib/Seaborn)** to create a visualization, and then presented the project in a professional environment.
- Developed a **Java**-based chatbot that responded dynamically to user input, demonstrating NLP and conditional logic.
- Used forensic tools such as **Autopsy** and **FTK Imager** to analyze digital evidence from a simulated suspect's computer. Identified hidden files and determined the subject's guilt based on data evidence. This simulated what computer forensics did.
- Completed multiple data analysis projects as part of the Google Data Analytics Certificate, applying **R programming**, **SQL**, **Tableau**, and **Microsoft Excel** to clean, visualize, and derive insights from complex datasets.

COURSEWORK

Programming I & II - Java, object-oriented principles, loops, classes

Data Structures - Stacks, Queues, Trees, Hash tables, Graphs,

Intro to Database - SQL, ER models, relational database design

Data Wrangling with Python – Cleaning, transforming, and analyzing data

Computer Applications for Business - Microsoft Excel, PowerPoint, Word.

EXPERIENCE

Customer Service and Cashier Quiznos Sub - Jacksonville, FL
08/2018 - 12/2022

- Operated POS and back-end software systems during daily shifts; identified and resolved minor technical issues
- Improved checkout efficiency by recommending and implementing workflow changes, reducing average wait time.
- Skilled in using various software applications and programs including POS, Microsoft Office etc.
