SUMMARY

Results-driven Data Analyst with 4+ years of experience in healthcare and financial analytics, specializing in SQL, Python, R, ETL, and data warehousing. Proficient in predictive modeling, A/B testing, and forecasting with Scikit-learn, TensorFlow, Pandas, and NumPy. Skilled in creating actionable insights through Tableau, Power BI, Excel, and Crystal Reports. Experienced in cloud analytics (AWS, Azure), workflow automation, ETL orchestration, data governance, and HIPAA/GDPR compliance.

WORK EXPERIENCE

Data Analyst | CVS Health | IL, USA

Aug 2024 – Present

- Engineered **ETL pipelines** using **Python** and **Apache Airflow** for orchestration, automating extraction, transformation, and validation of healthcare data, improving processing efficiency **40%** and ensuring accurate, compliant datasets for advanced analytics.
- Validated **Epic EHR** data quality with clinicians, correcting **18%** of anomalies to ensure accurate dashboards and predictive models.
- Tuned **PostgreSQL** queries on multi-year patient datasets using indexing and partitioning, **reducing execution latency 60%** and enabling scalable population health analytics with regulatory-compliant clinical reporting.
- Conducted **exploratory data analysis (EDA)** on patient datasets, detecting anomalies, correlations, and clinical trends that informed predictive modeling and supported evidence-based decision-making for healthcare strategies.
- Developed interactive **Power BI** dashboards using **DAX** and **Power Query**, integrating patient outcomes and clinical **KPIs**, optimizing data models for real-time analytics, reducing report generation time **50%**, and enabling evidence-based operational decision-making.
- Architected **HIPAA-compliant** cloud storage on **AWS S3**, ensuring secure, scalable, and reliable storage of large healthcare datasets while maintaining strict regulatory compliance for analytics and reporting.
- Executed **A/B testing** on clinical interventions, applying statistical significance testing to evaluate treatment efficacy and driving data-driven adoption of optimized protocols that improved patient outcomes.
- Collaborated with clinicians and data teams to ensure analytics aligned with **healthcare compliance** and **business goals**.

Data Analyst | Accenture | Mumbai, India

June 2020 – July 2023

- Designed advanced financial data pipelines using **Python** and **Alteryx**, automating extraction, transformation, and enrichment of multi-source datasets, improving data quality **47%**, enabling predictive modeling, and accelerating regulatory-compliant portfolio risk analysis.
- Executed advanced queries and optimized **SQL** databases to retrieve multi-year transaction and account data, reducing query latency by **55%** and enabling faster decision-making for portfolio analysis and compliance reporting.
- Built and deployed **18+** interactive **Tableau dashboards**, including **real-time portfolio** monitoring, integrating live market streams and transactional data to deliver **KPI** tracking, exposure analysis, and risk insights for executive decision-making.
- Built **Azure Data Factory ETL pipelines** with dynamic parameterization, incremental loads, and monitoring, automating **5TB+** financial data ingestion, **reducing latency 45%** and **manual effort 40%**, ensuring scalable, compliant enterprise-grade integration.
- Conducted advanced financial modeling and analytics using **Advanced Excel**, including pivot tables, macros, and scenario simulations, providing actionable insights into capital allocation, liquidity forecasting, and revenue optimization.
- Generated comprehensive reports and documentation using **Confluence**, standardizing workflow documentation and ensuring seamless knowledge sharing across analytics, compliance, and finance operations teams.
- Architected enterprise-grade data warehousing in **Snowflake**, leveraging **Informatica ETL** for scalable ingestion, schema optimization, and partitioning, reducing query latency **52%** while ensuring data governance, compliance, and performance tuning efficiency.

TECHNICAL SKILLS

Languages:	Python, Scala, R, SQL, SAS
Packages/Libraries:	NumPy, Pandas, Matplotlib, Seaborn, ggplot2, SciPy, Scikit-learn, TensorFlow
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)
IDEs:	Visual Studio Code, PyCharm, Jupyter Notebook
Database Management:	MySQL, PostgreSQL, SQL, Oracle, Snowflake, dbt
Cloud Technologies:	AWS, Azure
Methodologies:	SDLC, Agile, Waterfall, Predictive Modeling
Version Control:	Git, GitHub, Bitbucket
Data Manipulation:	Data Analysis, Data Mining, Data Preprocessing, Data Mapping, Data Cleaning, Data Visualization, Data Modeling, Data Warehousing, Data Storytelling, Data Wrangling, Data Acquisition, Data Integration, Data Transformation
Other Skills:	SSIS, SSRS, Machine Learning Algorithms, CI/CD, Probability Distributions, Confidence Intervals, ANOVA, Association Rules, Clustering, Advanced Analytics, ETL Processes, Informatica, Report Generation, Regression, A/B Testing, Forecasting & Modeling, Hypothesis Testing, Time Series Analysis, Root Cause Analysis

CERTIFICATION

- **Azure Data Engineer Associate** - **AWS Certified Cloud Practitioner**

EDUCATION

Master of Science in Information Technology and management with specialization in Data Analytics and Management

- *Illinois Institute of Technology, Illinois, Chicago, USA*

[Aug 2023 – May2025]

Bachelor of Engineering in Mechanical Engineering

- *University of Mumbai, Mumbai, India*

[June 2019 – May2022]
