

Ibrahim Maali

Software Engineer

Summary

A skilled Software Engineer with a strong foundation in front-end development using React, secure API design with ASP.NET Core, and advanced testing methodologies using tools like Selenium and Cypress. Skilled in creating scalable, high-performance solutions while ensuring quality and efficiency. Seeking opportunities to contribute to innovative projects in technology-driven organizations.

Employment and Professional Training

❖ Full stack developer Internship

Zambian Cyber Security Initiative Foundation (ZCSIF),
remote

January 2025 - present

- Frontend Development (React.js) – Design and implement responsive, high-performance user interfaces using React, ensuring seamless user experience across devices and browsers.
- Backend Development (**ASP.NET Core**) – Develop and maintain **RESTful APIs**, manage authentication and authorization (**JWT, Identity**), and integrate business logic to support application requirements.
- Database Management (**SQL Server**) – Design and optimize relational database schemas, implement efficient CRUD operations, and ensure data integrity and security.
- Agile Collaboration & Code Quality – Work in an Agile environment, participate in daily stand-ups, code reviews, and sprint planning, while adhering to best coding practices and version control (**Git**).

❖ Frontend Developer Internship

Udacity, remote

May 2024 – September 2024

- Mastered **HTML5, CSS3, JavaScript**, and **React** to create interactive and dynamic web applications.
- Developed several projects including:
 - **Weather Journal App**: Built a weather application integrating Web APIs for real-time data retrieval and asynchronous JavaScript for dynamic updates.
 - **Travel App**: Designed a travel planner featuring advanced features like destination lookups and itinerary management using **Webpack** and **Sass**.
 - **Evaluate a News Article**: Applied **Natural Language Processing (NLP)** to analyze news content and evaluate its sentiment.

Details

Chicago Ridge, Illinois, USA

Skills

- **Automation Testing**: Cypress, Selenium with Cucumber/Gherkin (BDD).
- **Mobile Testing**: Appium.
- **Performance Testing**: JMeter.
- **API Testing**: Postman, Swagger, and RestAssured.
- **Manual Testing**: Based on ISTQB methodologies. Quality focus through manual testing techniques.
- **Test Management**: Test case creation, execution, and defect tracking/reporting/managing using JIRA.
- **Testing Types**: Functional, non-functional, regression, and smoke testing.
- **Frontend Development**: JavaScript, HTML, CSS, SAAS, TypeScript, ReactJS.
- **State Management**: Context API, Redux, and Redux Toolkit.
- **UI Frameworks**: Material-UI and Bootstrap.
- **Backend Development**: C#, ASP.NET Core (MVC and Web API).
- **Database Management**: SQL Server and MySQL.
- **Version Control**: Git, GitHub.
- **CS Fundamentals**: C++, Java, Data Structures, Algorithms, and Object-Oriented Programming (OOP). Strong problem-solving abilities and attention to details.

Languages

- Arabic: Native
- English: proficient

❖ QA Automation Training

Super Quality Academy, remote

February 2024 – July 2024

- Gained expertise in **API testing** using **Postman** and **SoupUI**, verifying API functionality, performance, and security.
- Conducted **performance testing** using **JMeter**, analyzing system stability under varying loads.
- Automated testing of mobile applications using **Appium** and web applications with Selenium and **BDD Cucumber**.

❖ Full Stack Training

Knowledge Academy, remote

May 2023 – July 2024

- **Front-End Development:** Built several projects, such as:
 - **E-Learning Website:** Designed and developed a responsive platform using **HTML5**, **CSS3**, **Bootstrap**, and JavaScript.
 - **E-Commerce Website:** Created a scalable e-commerce solution using **React**, focusing on modular design and state management.
- **Back-End Development:**
 - Learned and implemented concepts in **ASP.NET Core MVC**, including routing, controllers, and dependency injection.
 - Built APIs for CRUD operations using **Entity Framework** and SQL Server, optimizing database queries for performance.

❖ QA Manual & Automation Internship

Foothill Technology Solutions, remote

March 2023 – August 2023

- Conducted detailed manual testing of web applications based on the **ISTQB** Foundation Level (CTFL) syllabus.
- Developed test plans, test cases, and scripts to validate application functionality and performance.
- Identified and reported defects, ensuring clarity and actionable feedback for developers.
- Designed and implemented automation test scripts using **Cypress** for functional and end-to-end testing.
- Validated dynamic elements and complex interactions using advanced Cypress features.
- Generated comprehensive test reports detailing coverage, pass/fail rates, and improvement areas.

❖ CS & Problem-Solving Training

Knowledge Academy, remote

December 2022 – April 2023

- Advanced understanding of **C++ programming**, object-oriented design, algorithms, and data structures.
- Solved complex coding problems, enhancing skills in computational logic and debugging techniques.

❖ Senior QA/QC Engineer

Petrofac Limited, Kuwait

October 2015 – January 2021

- Led the development and execution of quality assurance processes, demonstrating a strong understanding of compliance, risk management, and process optimization.
- Collaborated with cross-functional teams to ensure the implementation of rigorous testing methodologies.
- Mentored team members, fostering a culture of continuous improvement and efficient quality practices.

❖ Project Engineer

Consolidated Contractors Company (CCC), Saudi Arabia

[January 2014 – September 2015](#)

- Coordinated project planning and execution, emphasizing attention to detail and risk mitigation.
- Strengthened collaboration among diverse stakeholders, enhancing delivery timelines.

CERTIFICATES

1. Frontend Developer Nanodegree

[Udacity, September 2024](#)

- Completed the Palestine Launchpad Program in collaboration with SPARK and Google.

2. QA Automation Training Certificate

[Super Quality Academy, July 2024](#)

- Recognized for completing advanced training in web testing using Selenium, mobile testing using Appium, and API automation testing using Postman and Performance testing using JMeter.

3. Full Stack Development Training Certificate

[Knowledge Academy, July 2024](#)

- Certification in mastering front-end (React) and back-end (ASP.NET Core) technologies.

4. Manual & Automation Testing Internship Certificate

[Foothill Technology Solutions, August 2023](#)

- Credential for completing an internship focused on manual and automation testing using Cypress.

5. CS and Problem-Solving Training Certificate

[Knowledge Academy, April 2023](#)

- Certification in C++ programming, data structures, and algorithms.

Education

▪ Master's Degree in Project and Program Management- *American University of Beirut, Beirut*

[January 2021 – March 2022](#)

- Non-thesis program focused on advanced project and program management methodologies, leadership, and strategic planning.

▪ Bachelor's Degree in Electrical Engineering- *Birzeit University, Palestine*

[September 2008 — April 2013](#)
