Professional Summary

Full Stack .NET Developer | C# | ASP.NET Core | React | Azure | SQL Server

Results-driven software engineer with over 5 years of experience designing and developing scalable, secure web applications using C#.NET, ASP.NET MVC/Core, and modern front-end frameworks like React and Angular. Proficient in RESTful API development, Entity Framework Core, and SQL Server optimization. Skilled in cloud-native development on Microsoft Azure and AWS, CI/CD automation, and container orchestration with Docker and Kubernetes. Adept at Agile methodologies, test-driven development, and delivering high-performance, cloud-ready solutions that align with business goals.

TECHNICAL SKILLS

Languages: C#.NET, VB.NET, JavaScript, TypeScript

Frameworks: .NETCore, ASP.NET, MVC, Entity Framework

Web Technologies: React, Angular, Vue.js, Bootstrap, HTML, CSS, Blazor, jQuery

Backend & Integration: Node.js, REST APIs, SOAP, JSON, XML, Web API, SignalR, gRPC, OAuth, JWT, GraphQL, Kafka

Databases: SQL Server, Oracle, MySQL, PostgreSQL, MongoDB, T-SQL

Cloud: Microsoft Azure, AWS

DevOps & Tools: Git, GitHub, Docker, Ansible, Kubernetes, Terraform, CI/CD, Jenkins

Testing: xUnit, NUnit, JUnit, Selenium (Unit & UI Testing)

Project Management Tools: JIRA, Version One, Confluence

Development Tools & Utilities: SSMS, Visual Studio, Android Studio

EXPERIENCE

.NET Developer

Southeast Missouri State University, Missouri, United States

Aug 2024 – May 2025

Project: Student Performance Analytics Platform

- Developed backend services using ASP.NET Core Web API for managing student performance data.
- Integrated Entity Framework Core with SQL Server to ensure efficient data handling.
- Reduced API response time by 40% through optimized queries and caching strategies.
- Built interactive dashboards using React JS for real-time performance visualization.
- Deployed the system on Azure App Services with monitoring via Application Insights.
- Implemented authentication using Azure Active Directory B2C for user management.

Software Engineer

NTT DATA, Hyderabad, India

Feb 2022 – July 2023

Project: Enterprise Resource Planning (ERP) System

- Optimized SQL Server queries, reducing report generation time by 30%.
- Integrated Azure services for secure authentication and cloud-based data storage.
- Built role-based access control and audit trail mechanisms for HIPAA compliance.
- Collaborated on microservices built with .NET Core and Web API, integrating with SQL Server via Entity Framework Core.
- Crafted interactive UI using Angular, improving user experience and workflow efficiency.
- Resolved critical performance issues through effective debugging.

Graduate Engineer Trainee**HCL Tech, Noida, India****Sept 2019 – Feb 2022****Project: Healthcare Claims Processing System**

- Engineered insurance claims modules with ASP.NET MVC and Oracle PL/SQL, enhancing system reliability and data integrity.
- Created RESTful APIs with ASP.NET Web API to enable system integration across departments.
- Enhanced frontend using React JS, resulting in a 25% increase in user adoption.
- Utilized Azure Functions for automating document validation workflows.
- Improved database performance by 30% through indexing and query tuning.
- Led code reviews, mentored junior developers and enforced test-driven development practices.

DevOps Engineer**Great coders Hyderabad, India****Jan 2019 – May 2019****Project: Cloud-Based CI/CD Pipeline Implementation for .NET Applications**

- Built CI/CD pipelines with Azure DevOps and AWS Code Pipeline for ASP.NET Core app deployments.
- Automated deployment of ASP.NET Core apps on Azure App Services and AWS EC2.
- Implemented role-based access control (RBAC) across cloud platforms to secure CI/CD pipelines.
- Conducted infrastructure audits and vulnerability scans to ensure compliance with standards.
- Deployed Docker containers on Azure Kubernetes Service (AKS) and AWS Elastic Kubernetes Service (EKS) for high availability.
- Used Terraform to automate infrastructure provisioning, reducing environment setup time by 50%.

EDUCATION**Southeast Missouri State University, Missouri, United States**

Master of Science in Computer Science, GPA 3.72

Aug 2023– May 2025
