

JADON LEONG

Brooklyn, NY • (917) 283-1077 • jadonleong02@gmail.com • linkedin.com/in/jadon-leong

Education

Master of Science, Applied Health Informatics – Stony Brook University, May 2025

Bachelor of Science, Health Science – Stony Brook University, May 2024

CompTIA Network+ Certification Training, July 2025

Core Competencies

Health Informatics • Cybersecurity Awareness • Clinical Workflow Optimization • EHR Usability • Data Analytics

Technical Skills

Programming: **Python, SQL, R, C#, Streamlit**

Tools & Platforms: **Tableau, Microsoft Excel, PowerPoint, Project, Azure, Google Cloud Platform**

Databases: **MongoDB, Redis**

Other: **ICD-10 Coding, EHR Systems, xDome** (Novice)

Professional Highlights

Clinical Workflow & EHR Usability

- Observed and analyzed clinical workflows to identify inefficiencies and usability issues in EHR systems.
- Collaborated with cross-functional teams to propose enhancements for system integration and user experience.

Health Informatics & Cybersecurity

- Aided the development of a centralized cybersecurity policy database to support automatic renewal notification.
- Used a cloud-based cybersecurity platform to review security posture and profile of lab instruments.
- Provided analytics to support technology asset management.
- Gained exposure in NIST 800-171 security controls.

Administrative & Data Entry Support

- Managed front desk operations and patient intake at Maimonides and City Wide Radiology.
- Entered accurately ICD-10 codes and digitized patient records into EHR systems.
- Modernized outdated filing systems to achieve administrative efficiency and data accuracy.

Experience

- | | |
|---|---------------------|
| • Applied Health Informatics Practicum , Mount Sinai Health System | Jun 2025 – Aug 2025 |
| • Data Entry and Billing Specialist , Maimonides Medical Center | Jul 2024 – Aug 2024 |
| • Volunteer , City Wide Radiology | Jun 2023 – Aug 2023 |
| • Office Assistant , Dr. Raisa Oaklander Medical Office | Dec 2021 – Jan 2022 |
| • Cyber Protection Intern , CP Consultant | Jul 2021 – Aug 2021 |

School Projects

Predictive Modeling for Diabetes Risk

- Cleaned and balanced a dataset of 100,000+ records from 130 hospitals.
- Built and evaluated predictive models using logistic regression, decision trees, CatBoost, XGBoost, and LinearSVC in Python.
- Created an interactive Tableau dashboard to visualize key insights and model performance.

Languages & Interests

- Languages: English, Cantonese
- Interests: Building Custom PCs, Basketball
