

Jahnavi Kommineni | Business System Analyst

Denton, TX | +1 (682)-272-2750 | jkommoneni2@gmail.com | [LinkedIn](#)

Professional Summary:

Results-oriented Business System Analyst with 4+ years of experience in the energy, retail, and banking sectors, driving process optimization, system integration, and data-driven solutions. Skilled in SQL, python, power BI, Tableau and Agile (Scrum, Kanban) with expertise in CRM/ERP systems, API integrations, and cloud platforms (AWS, Azure, GCP). Proven Ability to translate business needs into scalable solutions while ensuring compliance with GDPR, SOX, and HIPAA.

Skills:

- **Data Analysis & Visualization:** SQL, Excel, Power BI, Tableau, Python, R.
- **Business Analysis & Documentation:** Requirement Gathering, BRD/FRD, User Stories, BPMN, Lucidchart, UAT, Process Optimization.
- **ERP & CRM Systems:** SAP, Salesforce, ServiceNow.
- **ETL & Data Management:** Informatica, Talend, SSIS, Data Modeling, Data Quality.
- **Cloud & Big Data:** AWS, Azure, Google Cloud (GCP), Hadoop, Spark, Hive, Kafka.
- **Agile & project Management:** Agile (Scrum, Kanban), Sprint Planning, Backlog Refinement, JIRA, Confluence, Trello, MS Project.
- **API Integration & Testing:** RESTful APIs, Postman, Swagger, Selenium, JUnit.
- **DevOps & version Control:** Git, Jenkins, Docker, Kubernetes.
- **Compliance & Standards:** GDPR, SOX, HIPAA, ISO 14001, PCI-DSS.

Experience:

Sr. Business System Analyst | ConocoPhillips | Houston, TX

Nov 2024 – Present

- Spearheaded the full SDLC for energy management applications, translating business requirements into BRDs/FRDs and delivering scalable solutions aligned with corporate objectives.
- Engineered business process models (Visio, BPMN, UML) that streamlined workflows and strengthened compliance with ISO 14001, SOX, and GDPR.
- Produced financial and operational dashboards in Tableau and Excel, providing executives with actionable insights that reduced energy costs by **20%**.
- Leveraged Hadoop, Spark, and Hive for large-scale energy data processing, while applying predictive models in Python (TensorFlow, scikit-learn) to enhance demand forecasting accuracy by **15%**.
- Implemented API integrations and DevOps automation (Git, Jenkins, Docker), combined with automated testing (Selenium, JUnit), reducing release cycle time by **30%** and improving system reliability.

Business System Analyst | 7 – Eleven | Irving, TX

Dec 2023 – Nov 2024

- Consolidated and analyzed sales, inventory, and customer data with SQL and Power BI, enabling leadership to optimize category performance and increasing product availability by **20%**.
- Delivered interactive KPI dashboards in Power BI/Tableau, cutting reporting time by **35%** and empowering executives to make real-time, data-driven decisions.
- Streamlined store operations by mapping workflows (Visio, BPMN) and integrating POS with procurement systems, improving supply chain efficiency by **25%**.
- Led AWS cloud migration and ETL development (Informatica, Kafka), boosting data accuracy by **30%** and scaling reporting for global operations.
- Enhanced retail systems through microservices (Docker) and Selenium-based automation, reducing downtime by **40%** and accelerating feature delivery.

Business Analyst | Standard Chartered | Bangalore, India.

June 2021 – Dec 2022

- Partnered with stakeholders to capture and translate requirements into functional/technical specifications, enhancing customer engagement and reducing onboarding time by **20%**.
- Created SQL-driven reporting systems and interactive Power BI dashboards, cutting reporting errors by **30%** and accelerating strategic decision-making.
- Automated reporting pipelines with Python and ETL, reducing manual work by **40%**, while aligning workflows with GDPR/PCI-DSS and enhancing credit risk assessment accuracy by **15%**.

Business Analyst | Rabobank | Bangalore, India.

June 2020 – May 2021

- Explored financial datasets using SQL, Python, Hadoop, and Spark to identify optimization opportunities, improving operational efficiency by **20%**.
- Built Power BI dashboards and reports to monitor key banking KPIs, reducing reporting cycle time by **35%** and strengthening financial planning.
- Partnered with Data Science teams on ML-driven risk models and supported Blockchain adoption, improving credit risk accuracy by **15%** and accelerating feature delivery by **25%**.

Education:

Master Of Science in Business Analytics | University Of North Texas | USA

Jan 2023 – Dec 2024
