SUMMARY

Detail-oriented and results-driven Data Professional with 3 years of experience across Data Analytics, Data Science, Machine Learning, and Data Engineering roles. Proven ability to transform data into actionable insights and build scalable solutions to optimize decision-making. Skilled in SQL, Python, Power BI, Machine Learning, and cloud technologies (AWS, Azure). Strong collaborator with cross-functional teams and a passion for driving business impact through data.

TECHNICAL SKILLS

Programming: Python | SQL | R

Machine Learning: Scikit-learn | XGBoost | TensorFlow (basic)

Data Engineering: ETL Pipelines | Apache Airflow | DBT | Snowflake

Data Visualization: Power BI | Tableau | Matplotlib | Seaborn

Databases: MySQL | PostgreSQL | BigQuery

Cloud Platforms: AWS (S3, EC2, Lambda) | Azure Data Factory

Tools: Git | Jupyter | VS Code | Excel | Jira

PROFESSIONAL EXPERIENCE

Data Analyst | Dell Technologies | Austin, TX

Jan 2023 – Present

- Designed interactive Tableau dashboards to monitor global product performance, reducing reporting time by 40%.
- Optimized SQL queries for business intelligence reporting, cutting down execution time by 60%.
- Partnered with finance and product teams to generate ad-hoc insights for executive decision-making.
- Performed root-cause analysis on churn using Python, improving customer retention by 15%.
- Automated monthly KPIs tracking using Python scripts and Excel macros.

Machine Learning Engineer | PayPal | San Jose, CA

Jun 2021 – Dec 2022

- Built fraud detection model using XGBoost, reducing false positives by 30%.
- Deployed ML pipeline on AWS Lambda with real-time predictions for 100K+ transactions per day.
- Conducted A/B testing to assess model effectiveness across customer segments.
- Collaborated with data engineers to improve data ingestion using Apache Airflow.
- Documented model performance and presented results to senior leadership.

Data Engineer | ZoomInfo | Waltham, MA

Jun 2020 – May 2021

- Developed ETL pipelines using Airflow and DBT, improving data freshness by 70%.
- Maintained data models in Snowflake and performed schema optimization.
- Integrated external APIs and ingested data into centralized warehouse.
- Monitored data pipeline health using custom alerting scripts.
- Worked with product teams to ensure data consistency across platforms.

EDUCATION

Bachelor of Science in Computer Science

May 2020

University of Illinois Urbana-Champaign

CERTIFICATIONS

- Google Data Analytics Certificate
- Microsoft Azure Data Fundamentals
- Tableau Desktop Specialist
