

SUMMARY

Business Analyst with 3+ years of experience in the financial and insurance sectors. Proficient in Agile, SDLC, and Waterfall methodologies. Experienced in data analytics and visualization using Python, SQL, R, Tableau, and Power BI. Skilled in drafting documentation (BRD, FRD, SRS) and managing projects with MS Project and Jira. Expert in process optimization, cost reduction, and customer satisfaction improvements. Competent in stakeholder management, risk assessments, and process automation using Microsoft Visio, Figma, and SharePoint. Adept at providing data-driven insights to support business decisions and operational improvements.

SKILLS

Methodologies: SDLC, Agile/Scrum, Waterfall, Lean Six Sigma, PMI-PMP principles
Project Management: Scope Definition, Resource Allocation, Risk Management, Budget Tracking, Stakeholder Engagement
Languages: Python, SQL, R
Packages: NumPy, Pandas, Matplotlib, SciPy, ggplot2
Documentation: BRD, FRD, SRS, Project Charters, RACIMatrices, Work Breakdown Structures(WBS)
Project Management Tools: MS Project, Jira, Confluence, Trello, Asana, MS SharePoint
BI/Visualization Tools: Tableau, Power BI, Looker, Alteryx, Google Analytics, Adobe Analytics
Data Analysis Tools: Advanced Excel(Pivot Tables, VLOOKUP, Macros), SPSS, MATLAB
Analysis Skills: Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
Tracking/Other Tools: Microsoft Visio, Figma, HP Quality Center, Rational ClearQuest, RTM, UAT Coordination
Soft Skills: Leadership, Team Building, Conflict Resolution, Time Management, Problem-Solving, Negotiation, Decision-Making, Stakeholder Communication
Operating System: Windows, Linux

EDUCATION

Master of Information System	May 2023 - Dec 2024
Cleveland State University	
Bachelors in information technology	July 2016 - Aug 2020
Ganpat University (GUNI), India	

EXPERIENCE

- McKesson, OH | July 2024 - Current | Business Analyst
- Elicited and documented business requirements by conducting interviews, workshops, and surveys with stakeholders, translating business needs into detailed functional specifications for IT teams.
 - Coordinated with cross-functional teams to analyze existing business processes and identify inefficiencies, implementing process improvements that optimized operations, reducing costs by 20%.
 - Developed advanced reports and dashboards using Power BI, Tableau, and SQL, providing actionable insights to support strategic decision-making by senior leadership.
 - Led User Acceptance Testing (UAT) process, coordinating with business and IT teams to ensure successful system implementation and minimal disruption to business operations.
 - Managed stakeholder expectations by communicating project status, requirements, and risks to senior management and clients, fostering strong relationships to ensure ongoing support and engagement.
 - Performed detailed data analysis (financial analysis, trend analysis) using Excel, Python, and SQL, analyzing large datasets to identify trends and providing actionable business recommendations.
 - Assisted in defining project scope, timelines, and deliverables, ensuring alignment with business objectives, and driving timely project completion using project management tools such as MS Project and JIRA.
 - Utilized Microsoft Visio and Figma to map business processes (workflow design, system architecture), design user interfaces, and create visual documentation to support cross-functional communication.
- Infinite Infolab, India | Aug 2020 - May 2023 | Business Analyst
- Utilized the Waterfall development methodology for Requirements, Planning, Design, and Deployment.
 - Employed MS SharePoint for effective document management and team collaboration, maintaining project continuity and stakeholder engagement.
 - Optimized SQL queries and database indexing, reducing query execution times by 50% and improving report generation efficiency.
 - Authored and revised Functional Requirement Documents (FRD), Business Requirement Documents (BRD), and System Requirement Specifications (SRS) to outline necessary changes and new functionalities for business systems.
 - Utilized Power BI to create and maintain advanced analytical reports and dashboards that provided critical business insights and supported strategic decisions.
 - Conducted comprehensive SWOT, Risk, GAP, and Impact analyses to identify potential strategic opportunities and threats, guiding future business directions.
 - Designed and implemented effective communication and documentation strategies using Microsoft Visio and Figma to facilitate clear and concise sharing of ideas and information.
 - Provided leadership and guidance to junior analysts, fostering a collaborative team environment that encouraged innovation and efficiency.
 - Negotiated with stakeholders to prioritize project deliverables, resulting in optimized resource utilization and timely project delivery.
 - Led the business analysis charge by gathering business requirements, analyzing data, and drawing actionable conclusions, leading to improved operations.
 - Leveraged Jira and Confluence for project management and documentation, ensuring that all project milestones were completed on schedule and within budget.
