

JASWANTH KILARI

Business Analyst | Data Analyst

Montgomery, AL | (205) 578-8286 | jaswanthdata01@gmail.com

SUMMARY

Business Analyst with 3+ years of experience bridging business needs with technology solutions across **retail and enterprise domains**. Skilled in gathering and analyzing requirements, documenting BRDs/FRDs, performing gap analysis, and supporting UAT to ensure smooth delivery. Strong background in **data analysis, SQL, Power BI, and Python**, enabling data-driven decision-making. Adept at collaborating with cross-functional teams to improve processes and deliver scalable business solutions.

TECHNICAL SKILLS

- Business Analysis:** Requirements gathering, Gap analysis, BRDs/FRDs, User stories, UAT support, Stakeholder communication, Agile/Scrum
- Programming & Scripting:** SQL, Python (SciPy, Stats Models, Pandas, NumPy), R, JavaScript, HTML, CSS
- Reporting & BI Tools:** Power BI, Tableau, Looker, Mode Analytics, Power Automate, Microsoft Excel
- ERP & Reporting Systems:** SAP, Business Objects, Oracle NetSuite
- Database & Data Management:** Snowflake, Redshift, BigQuery, Microsoft Access, dbt, ETL frameworks (Azure Data Factory, AWS)
- Process Automation:** Power Automate workflows, Automated reporting.
- Data Analytics & Statistics:** Data mining, SPSS, SAS, Segmentation, Predictive modelling, Pattern/trend analysis, KPI tracking
- Project Tools & Documentation:** JIRA, Confluence, Agile, Software Testing, Technical Documentation, User Stories

WORK EXPERIENCE

Business Data Analyst

McKesson, AL | Jun 2024 – Current

- Partner with business stakeholders to gather, document, and refine requirements for reporting, retail operations, and compliance workflows.
- Created **BRDs, FRDs, and user stories**, ensuring alignment between business objectives and IT deliverables.
- Conducted **gap analysis** between current processes and proposed solutions, closing gaps with business and IT stakeholders.
- Supported **UAT testing** and QA teams to validate requirements and ensure defect-free product delivery.
- Built dashboards and reports in **Power BI** to provide business insights for leadership and operational teams.
- Delivered process improvements that reduced manual reporting time by 25% and enhanced accuracy in retail inventory tracking.

Data Analyst

Adani, India | Dec 2020 – Jul 2022

- Gathered and analyzed business requirements from retail and supply chain teams, translating them into clear documentation and system specifications.
- Collaborated with development teams to design solutions aligned with stakeholder needs, including **retail order management and inventory analytics**.
- Drafted **functional specifications (FRDs)** and collaborated with QA on **test case validation**.
- Conducted **UAT sessions**, tracked defects, and ensured timely closure before production release.
- Designed and maintained SQL queries and Python scripts to support reporting and data-driven decision-making.
- Automated reports that improved decision-making speed for supply chain managers and reduced reporting errors by 20%.

EDUCATION

Master of Science in Data Science

University of Alabama Birmingham, Birmingham, AL | Aug 2022 - Apr 2024

Bachelor of Engineering in Computer Science

Visvesvaraya Technological University, Bangalore, India | Aug 2018 - Jul 2022

PROJECTS

Analyzing and Predicting IPL Outcomes

Developed **predictive models** in **Python** using statistical methods to forecast outcomes, improving prediction accuracy by **15%**.

Uber Pickups Analysis

Analyzed **Uber pickup data** using **Python** and **Tableau** to optimize driver allocation, reducing average wait times by **20%**.

Wine Quality Detection

Built a **machine learning model** in **Python** to predict wine quality, achieving **85% classification accuracy** using **Scikit-learn**.
