

Jathin Chowdary Manne

Software Developer

Irving, TX | jathin.c@worksemails.com | 972-571-1666

SUMMARY

- 4+ years of experience in developing web-based applications, with expertise in analysis, design patterns, client-server architecture, and full-cycle software implementation using Java and J2EE.
- Well-versed in SDLC methodologies, including Waterfall and Agile (TDD, Scrum), ensuring seamless project execution.
- Strong background in multi-tiered web application development, utilizing Java and J2EE technologies such as Core Java, JSP, Servlets, JUnit, RESTful APIs, JDBC, XML/XSLT, and JMS, along with frameworks like Struts, Spring, JSF, MVC, and Hibernate.
- Proficient in front-end technologies, including HTML, CSS, JavaScript, jQuery, AngularJS, NodeJS, ReactJS, Grunt, and Bootstrap, for building responsive and dynamic user interfaces.
- Hands-on experience with AWS services, including EC2, S3, and RDS, ensuring high availability and scalability, as well as deploying backend compute services with Lambda.
- Extensive knowledge of relational databases, including Oracle and SQL, and expertise in automated testing frameworks such as Selenium and Mockito for maintaining software quality.
- Skilled in build automation using Gradle and Maven, with experience implementing CI/CD pipelines via Jenkins to optimize development and deployment workflows.

SKILLS

Methodology: SDLC, Waterfall, Agile

Programming Languages: Java, C++, PL/SQL

Frameworks: Spring MVC, Spring, Hibernate, Spring Boot, Spring Security, Spring Data JPA, Node.js, React.js, Angular JS

J2EE Technologies: Servlets, JSP, JDBC, JUnit, JAXB, JMS, JSTL, Multi-threading, EJB, JavaBeans, JSF, JSTL, Multithreading

IDEs: IntelliJ IDEA, Eclipse, Visual Studio Code

Web Technologies: HTML5, CSS3, JavaScript, RESTful APIs, GraphQL, TypeScript, jQuery, Ajax, XML, JSON, Bootstrap

DevOps: Docker, Kubernetes, Jenkins, Bamboo, Ansible

Cloud Platforms: AWS, Azure, Google Cloud Platform (GCP)

Databases: Oracle, MySQL, SQL Server, DB2, PostgreSQL, MongoDB, Cassandra, Cosmos DB, DynamoDB

Version Control & Other Tools: Git, SVN, Gitlab, Bit Bucket, Maven, Gradle, Ant

Testing and Logging Tools: Junit, Mockito, Selenium, TestNG, Power Mock, JMeter, Jest, Enzyme, Cucumber, Log4J

Soft Skills: Effective verbal and written communication, Problem-solving, and Troubleshooting skills

Operating Systems: Windows, Linux, Unix

EXPERIENCE

Dario Health, USA | Software Developer

March 2024 - Current

- Followed Agile methodology, contributing to iterative development, sprint planning, and daily stand-ups to improve team efficiency.
- Developed React.js front-end interfaces, utilizing NPM components and Redux for efficient state management and modular development.
- Integrated Express.js with Node.js to optimize server operations, routing, and request handling.
- Built RESTful APIs using Spring REST, facilitating seamless communication between front-end and back-end systems.
- Strengthened software quality by implementing comprehensive unit and integration testing, achieving 95% test coverage and a 30% reduction in production defects.
- Integrated Databricks with AWS S3, Redshift, and Snowflake, ensuring seamless data flow across platforms.
- Designed front-end presentation logic with JSP, HTML, CSS, and Bootstrap to ensure a responsive and user-friendly interface.
- Deployed Spring Boot microservices in Docker containers using Amazon ECS, enabling scalable and efficient cloud-based deployments.
- Created and optimized SQL scripts to manage database structures in Oracle, ensuring data integrity and performance efficiency.
- Optimized development workflows by integrating CI/CD pipelines in Jenkins, accelerating deployments and improving efficiency.

Mphasis, India | Software Developer

June 2020 - Nov 2022

- Participated in SDLC phases, including requirements gathering, analysis, development, and testing, following the Waterfall model.
- Specialized in microservices architecture, using Spring, Hibernate, and RESTful web services for scalable applications.
- Designed and built RESTful APIs in Node.js with Express.js, implementing CRUD operations, request validation, and error handling for robust backend functionality.
- Developed responsive web pages using HTML5, CSS3, jQuery, and JavaScript, with hands-on experience in Angular and React.js.
- Utilized jQuery, React, Bootstrap, JSON, AJAX, and DOM scripting to create interactive web applications, enhancing user engagement with features like message posting and auto-complete forms.
- Monitored application performance using AWS CloudWatch, setting up alerts and dashboards for proactive issue resolution.
- Implemented Kafka consumers in Java to process real-time messages from Kafka topics, ensuring efficient event-driven communication.
- Managed Kubernetes services for application exposure, enabling seamless service discovery and load balancing.
- Improved application performance by 40% through backend code optimization and database query enhancements, reducing response times and enhancing user experience.
- Developed database interaction logic using JDBC API for seamless MySQL connectivity and optimized query execution.

EDUCATION

Master in Computer Science | University of North Texas, Denton, TX

Bachelor in Computer Science | Prasad V. Potluri Siddhartha Institute of Technology, Andhra Pradesh, India
