EDUCATION

University of Texas - Arlington, United States

Aug 2023 - May 2025

Master of Science, Information Systems

GPA: 4.0/4.0

Coursework: Data Warehouse, Cloud Computing, Database Management System, Data Mining, Data Science

Maharaja Sayajirao University, India

Jul 2017 - May 2021

Bachelor of Engineering, Computer Science & Engineering

GPA: 3.89/4.0

Coursework: Object Oriented Programing, Data Structure & Algorithms, Software Engineering, Operating Systems, .Net

WORK EXPERIENCE

Teaching Assistant, Department of Information Systems & Operations, United States

Aug 2024 - Present

- Conducting lectures on Web and Social Analytics, covering user behavior modeling, online marketing strategies, and techniques such as Correlational Heat Maps and Spearman's Correlations to enhance customer relationship management
- Grading assignments focused on data-driven decision-making case studies and holding office hours to assist students

Senior Systems Engineer, Infosys Limited, India

Jul 2021 - Jul 2023

- Built dynamic and reusable React components with JavaScript and TypeScript, improving UI efficiency by 20%
- Implemented database operations using Hibernate and optimized SQL queries, reducing data retrieval times by 30%
- Developed and deployed scalable microservices using Java, Spring Boot, and REST APIs, enabling seamless backend integrations and enhancing system performance
- Streamlined development workflows by implementing CI/CD pipelines and leveraging container orchestration tools with AWS for efficient deployments

Software Developer Intern, RemitAnalyst, Remote

Apr 2020 - Jun 2020

- Boosted user performance by integrating a review feature into the user dashboard via ReactJS framework, leading in 35% surge in feedback submissions and improved satisfaction ratings
 - Automated Twitter posting with web driver to report daily exchange rate changes, leveraging web scraping tools like BeautifulSoup and Selenium to enhance accuracy and real-time large-scale data extraction
-

PROJECT WORK

Vehicle Insurance Prediction

Jan 2024 - Apr 2024

- Developed a vehicle insurance prediction model using Decision Tree, Logistic Regression, and Correlation analysis, achieving 20% misclassification rate. Applied statistical techniques for improved accuracy, helping stakeholders assess risk and target customers. Technologies: SAS Analytics, Power BI, Python (Pandas, NumPy, Matplotlib)

YouTube Data Pipeline and Dashboard

Nov 2023 - Jan 2024

- Built a data pipeline to manage thousands of YouTube video data points, automating ETL processes and optimizing SQL queries to generate 30+ reports. Deepened decision-making insights into user engagement and content trends. Improved decisions with insights on engagement and content trends. Technologies: AWS Services (S3, QuickSight, Athena, Lambda)

Avoiding Covid-19 by Facemask Detection and Social-distancing

Nov 2020 - May 2021

- Devised a mask compliance system to analyze faces employing MTCNN and Haar Cascade algorithms, achieving 91% precision
- Directed data preprocessing operations, resized 3000+ images, and converted them to gray-scale for faster detection, and used a HOG-SVM classifier to enforce social distancing
- Created email alerts with attached images for unauthorized entry using Convolutional Neural Network. Technologies: Flask, Python (TensorFlow, Keras, OpenCV, Scikit-learn), Google Colab

Data Analysis and Chronicle Generation for NGOs

Aug 2020 - Nov 2020

- Incorporated Java-based system using Servlets, integrating MySQL to manage data records and reports on 95% of key metrics
 - Managed project dependencies with Maven and generate 15+ reports with Java Swing and JFreeChart, contributing to improvement in decision-making efficiency for NGOs. Technologies: MySQL, Java, Maven
-

SKILLS AND CERTIFICATIONS

Languages: SQL, TypeScript, JavaScript, Java, Python, HTML5/CSS3, C/C++

Frameworks/Libraries: React, Spring Boot, AWS Services

Tools: Tableau, MS Office, Adobe Photoshop, Git, Jira, SAP

Certifications: AWS Certified Cloud Practitioner (Nov '24), IBM Data Analyst (Sep '24), Infosys certified Spring Professional (Sep '21), Infosys certified Java Programmer (Aug '21), React guide for Frontend Web Development by Udemy (Apr '20)

POSITION OF RESPONSIBILITY

Event Organizer, Maharaja Sayajirao University, India

Sep 2017 – Feb 2020

- Led as a Volunteer head for the national-level fiesta 'Paramarsh Ideas Infinite' and contributed to Graphic Designing team
- Designed posters, managed social media platforms, and engaged in volunteer associations for event planning and propagation
