## PROFESSIONAL SUMMARY

Detail-oriented and self-driven Computer Science graduate student with over 2 years of hands-on experience in full-stack development. Skilled in designing, building, and deploying robust web applications using Java, Spring Boot, React, and Oracle SQL. Proficient in distributed systems, containerization with Docker, and messaging systems like Kafka. Passionate about solving business problems through scalable technical solutions and collaborating in Agile teams to deliver high-quality software.

## TECHNICAL SKILLS

- Backend: Java, Spring Boot, REST APIs, Kafka
- Frontend: React.js, JavaScript, HTML, CSS
- Database: Oracle, SQL
- Tools/Platforms: Docker, Git, OpenShift, JIRA, Agile/Scrum
- Programming: Java, Python, C++, Node.js
- Others: Data Structures, Algorithms, Machine Learning Basics

## EXPERIENCE

- ADS Softek Pvt Ltd – Hyderabad, India  
Machine Learning Intern | Dec 2022 – Jun 2023
  - Applied data preprocessing and model evaluation techniques for supervised learning problems.
  - Collaborated with the data science team to improve algorithm performance using scikit-learn libraries.
  - Participated in code reviews and data validations to ensure high-quality deliverables.
  - Gained experience working on data pipelines, anomaly detection, and analytics for financial datasets.

## PROJECTS

- Workforce Data Processing System (Academic Capstone)

- Developed a full-stack application to manage employee data using Java, Spring Boot, and React.
  - Integrated Kafka for asynchronous communication and Oracle for data persistence.
  - Deployed the application on Docker containers and simulated deployment via OpenShift.
  - Followed Agile methodology with weekly sprint planning and Git-based version control.
- Fake Credit Card Detection (ML Project)
    - Built a fraud detection model using Random Forest and KNN algorithms on real-world credit card datasets.
  - Medical Insurance Prediction
    - Designed and trained regression models to predict health insurance costs using demographic and health metrics.

## EDUCATION

Central Michigan University – Mount Pleasant, MI  
Master of Science, Computer Science | Expected May 2025

Gandhi Institute of Technology – Visakhapatnam, India  
Bachelor of Technology, Computer Science | Jun 2022

## CERTIFICATIONS

- The Data Analyst Course: Complete Bootcamp
- Data Structures and Algorithms in C
- Beginning C++ Programming
- Python with Machine Learning

## LANGUAGES

English – Fluent
