

JAYAKAR PARITALA

Business Data Analyst

(513) 302-4324 | jayakar.p19@gmail.com | [LinkedIn](#) | 📍 United States

Professional Summary

Business Data Analyst with 3+ years of experience improving healthcare systems by streamlining workflows, enhancing EHR usability, and ensuring compliance with HIPAA, HITECH, and NABH standards. Experienced in building dashboards using Power BI and Tableau and analyzing healthcare data using SQL, Redshift, and Azure tools to support faster reporting and decision-making. Delivered process changes that led to a 35% gain in efficiency and reduced rework by 30%, while supporting Agile teams through each project phase.

Technical Skills

- **Business Analysis & Documentation:** BRD, FRD, Use Cases, User Stories, BPMN, Process Flow Diagrams
- **Data Analysis & Programming:** SQL (MySQL, PostgreSQL, MS SQL), Java (MySQL oracle, PostgreSQL), Python (Pandas, NumPy), Excel (Pivot, VLOOKUP)
- **Data Visualization & BI Tools:** Power BI, Tableau, Looker, D3.js, HTML, ERP, SDLC, CMS, Domo, Share Point
- **ETL & Data Tools:** Alteryx, Talend, Apache Airflow, Informatica, SSIS, dbt, Technical Documentation
- **Cloud & Big Data:** AWS (Redshift, Glue, Athena), Azure (ADF, Synapse), Google BigQuery, Snowflake, Data Studio
- **Testing & QA:** UAT, Test Scenarios, Functional & Non-functional Testing, Financial Analysis, Data Modelling
- **Statistical Methods:** A/B Testing, Regression, Clustering, Forecasting, Power Automate, Business Analytics
- **Project Management:** JIRA, Confluence, Azure DevOps, Microsoft Visio, Lucid chart, Microsoft Dynamics 365

Work Experience

Business Data Analyst

Aug 2024 – Present

McKesson | Irving, TX

Responsibilities:

- **Analyzed** complex healthcare supply chain and patient datasets to identify inefficiencies, driving a **25% improvement** in overall operational efficiency.
- **Documented** detailed business requirements, reducing project rework by **20%** and enhancing clarity between stakeholders and technical teams.
- **Spearheaded** HIPAA and HITECH compliance strategies by conducting over 12 risk assessments and enhancing AWS-based data security, achieving a **40% reduction in security vulnerabilities**.
- **Crafted** and deployed 15+ interactive dashboards in Power BI and Tableau, enhancing supply chain visibility and enabling **real-time decisions that reduced reporting lag by 30%**.
- **Led** automation efforts in pharmaceutical distribution systems, resulting in a **30% gain** in order management accuracy.
- **Interrogated** over 10 million healthcare records using SQL and AWS Redshift, **identified** 5 compliance gaps, and delivered insights that **boosted audit preparedness by 20%**.
- **Authored** BRDs, FRDs, and user stories that improved developer-stakeholder alignment and accelerated delivery by **30%**.
- **Orchestrated** comprehensive UAT by designing 100+ test cases, resulting in **zero critical post-deployment issues** and a **35% rise in release quality**.
- **Contributed** to over 20 Agile ceremonies, accelerating AWS cloud-based solution deployment timelines by **20%** and **raising sprint velocity by 15%**.

Environments: AWS, SQL, Power BI, Tableau, JIRA, BPMN, Agile, HIPAA, HITECH, EHR, Microsoft Dynamics 365

Business Intelligence Analyst

Jan 2021 – Jun 2023

Accenture | India

Responsibilities:

- **Aligned** business requirements with enterprise transformation goals by engaging with 6+ cross-functional teams, which reduced project rework by **25%**.
- Identified and automated repetitive workflows, resulting in a **25% operational efficiency increase**.
- **Ensured** full regulatory compliance with HIPAA and NABH standards in collaboration with compliance teams, leading to a **100% audit success rate** and **35% lower legal risk**.
- Built interactive dashboards using **Power BI** and **Azure Data Services**, accelerating report generation by **30%**.
- **Converted** business objectives into 30+ user stories, BRDs, and FRDs, facilitating seamless communication and **increasing delivery accuracy by 40%**.
- **Engineered** 75+ test scenarios during UAT cycles, maintaining a **98% pass rate** and cutting post-launch defects by **50%**.
- Leveraged Agile methodology to increase sprint velocity by **45%** and improve time-to-market.
- **Derived** strategic insights from Azure SQL datasets, which **elevated forecasting accuracy by 28%** and enhanced operational planning by **15%**.

Environments: Azure, SQL, Power BI, Agile, BRD, FRD, Azure DevOps, HIPAA, NABH

Education:

Master of Engineering in Computer Science | University of Cincinnati, OH, USA.

Bachelor of Technology in Computer Science & Engineering | KL University, India.

(Specialization in Data Science & Big Data Analytics)

Certifications:

- AWS Certified Solution Architect
- AWS Certified Developer
- Professional Scrum Master I
- Tableau Desktop Specialist
- Lean Six Sigma White Belt Professional
- Microsoft Certified Azure Fundamentals
