## EXPERIENCE

### Software Developer, E Care Medical Group | Texas, USA

June 2025 - Present

- Developed and deployed 4+ .NET Core microservices on Azure App Services, reducing deployment time by 60% by automating builds and infrastructure provisioning using Azure DevOps and YAML templates.
- Integrated MySQL with .NET REST APIs for 15+ dynamic medical forms, achieving 100% HIPAA compliance through RBAC, audit logging, and encrypted data transmission.
- Optimized patient portal front-end using Razor Pages, Bootstrap, and lazy loading, resulting in a 40% improvement in load time and a 35% increase in patient engagement.
- Automated CI/CD workflows with Azure DevOps and Azure Repos, reducing manual deployment errors by 85% and accelerating release cycles from 7 to 2 days.
- Built SignalR-based real-time notifications for appointment and prescription updates, cutting alert delivery latency by 30% and improving provider response time.

### University of Houston, Teaching Assistant | Texas, USA

Aug 2024 - May 2025

- Guided 100+ students in cybersecurity, software engineering, and project management with a focus on secure coding, IAM, and cloud security.
- Mentored students in configuring and deploying CI/CD pipelines using GitHub Actions, Docker, and Azure DevOps, reducing average deployment failure rate by 60%.
- Created 15+ cloud lab environments using CloudFormation and Azure ARM templates, enabling reproducible infrastructure-as-code learning across both AWS and Azure platforms.

### Extern, Full Stack Data Analyst | Texas, USA

July 2024 - Aug 2024

- Analyzed 10,000+ customer reviews using Python, achieving 95% accuracy with AI-driven sentiment analysis.
- Used NLP and predictive modeling to identify consumer trends, optimizing decision-making by 20%.
- Collaborated with the DevOps team to deploy the analytics pipeline to AWS EC2 and automate daily batch jobs using Cron and shell scripts.

### Software Engineer, Mindquest Technology | Hyderabad, India

Dec 2022 - May 2023

- Built a modular employee portal using Angular 14 and Node.js, improving HR record processing speed by 30% and supporting 3K+ employee records with MongoDB.
- Boosted front-end rendering speed by 25% by implementing OnPush change detection, lazy loading modules, and modular reusable components.
- Secured API endpoints using JWT authentication and implemented RESTful routing in Express.js, reducing unauthorized access attempts by 90%.
- Developed pre-merge pipelines with GitHub Actions for unit testing, schema validation, and lint checks, cutting QA turnaround by 50%.
- Dockerized the application stack for isolated dev environments, reducing environment setup time from 4 hours to 15 minutes per developer.

### Software Engineer, CYIENT | Hyderabad, India

June 2022 - Nov 2022

- Developed a PHP-based vulnerability management tool integrated with OWASP ZAP CLI, automating nightly scans and reducing vulnerability exposure window by 40%.
- Deployed bash scripts for system backups and server monitoring on Debian VMs, improving infrastructure resilience and uptime to 99.8%.
- Conducted security audits across 50+ IAM configurations, improving access policy compliance by 10% based on NIST 800-53 standards.
- Automated IOC enrichment using MISP and Cortex integrations, cutting analyst triage time by 30% in threat response operations.
- Implemented client-side encryption and security headers in internal PHP tools, reducing XSS and data leakage risks by 50%.

## SKILLS

### Programming Languages

Python, C, C++, Java, JavaScript, HTML, CSS, SQL, C#, Bash, Go, TypeScript

### Frameworks

React.js, Node.js, Express, ASP.NET, Spring Boot, Flask, TensorFlow

### DevOps & Cloud

AWS, Azure, GCP, Git, Terraform, Ansible, Jenkins, Docker, Kubernetes

### Data Analysis & Visualization

Power BI, Tableau, Excel, Scikit-learn, A/B Testing, Snowflake

### AI Frameworks & Agents

VectorDBs, Amazon Bedrock, RAG Pipelines, OPENAI API, LLMops

### Databases

MongoDB, MySQL, PostgreSQL, SQLite, Cassandra, Redis

### Monitoring & Testing

Grafana, Splunk, Prometheus, Selenium, JUnit, RabbitMQ

### Certifications

AWS Solutions Architect, Azure Developer Associate, ServiceNow CSA

## EDUCATION

Master of Computer Science, University of Houston

May 2025

Bachelor of Computer Science, KL University

Aug 2022
