SUMMARY

Certified Data Analyst, BI, and Data Engineer with over 3 years of hands-on experience, my core expertise centers on transforming complex data into actionable insights. I excel at developing dynamic KPI dashboards and automating robust reporting solutions using leading visualization tools like Power BI, Tableau, and Qlik. My analytical prowess extends to advanced data analysis and forecasting with SQL, Python, and R. Furthermore, I design and implement efficient ETL pipelines via SSIS, Python, AWS, and Azure, ensuring seamless and comprehensive data delivery to empower strategic decision-making across organizations.

EXPERIENCE

Data Analyst | McKinsey & Company | USA

February 2025 – Current

- Extracted and modeled 2M+ rows of operational and financial data using SQL and Python (Pandas, NumPy) to identify performance bottlenecks across 3 client programs, enabling targeted cost-saving decisions.
- Created Power BI and Tableau dashboards with filters and DAX logic to visualize 12+ KPIs, and automated Excel-based workflows using Python scripts, reducing manual effort by 12 hours per week.
- Conducted A/B testing and regression analysis using R and Seaborn to evaluate pricing strategies, improving outcome alignment during a 6-month review cycle.
- Partnered with consultants and client-side teams to document requirements, validate outputs, and deliver insights in monthly reports used by 5+ business units, supporting decisions across 12 recurring cycles.

Application Development Analyst | Accenture | Hyderabad, India

August 2021 – July 2023

- Engineered ETL pipelines using SSIS and SQL Server to automate finance and operations reporting workflows, saving 15 hours per week of manual data processing.
- Migrated 30+ enterprise dashboards from QlikView/Qlik Sense to Power BI, enabling real-time visualization for 5 business units and improving cross-team collaboration.
- Crafted custom DAX measures to support forecasting, sales, and inventory analysis, improving tracking accuracy across 40+ KPIs.
- Collaborated with business analysts and QA teams to gather requirements and validate outputs, ensuring smooth delivery across 6 Power BI releases.
- Implemented a structured data validation layer for ETL outputs, resolving 12 recurring anomalies per month and improving reporting accuracy.

Technical Data Analyst Intern | Trinity Technolabs | India

January 2021 – July 2021

- Investigated 180,000+ records using SQL and Excel, flagging data discrepancies that improved audit accuracy across weekly operational summaries and enriched analysis quality across 20+ performance indicators.
- Configured Power BI visuals and slicers to track team-specific metrics for 3 internal departments, reducing dependency on manual Excel trackers and supporting real-time visibility into departmental performance.
- Streamlined recurring reporting workflows with automated macros and SQL scripting, combining SQL queries and Excel functions to map usage patterns and saving analysts over 10 hours per week.

TECHNICAL SKILLS

Data Analysis & Visualization:	Power BI (DAX, Power Query), Tableau, Qlik Sense, QlikView, MS Excel, SSRS, Alteryx
Programming Languages:	Python (Pandas, NumPy, Seaborn), R, SQL/PLSQL (Joins, CTEs, Window Functions)
Analytics & Modeling:	A/B Testing, Hypothesis Testing, Regression, ARIMA Forecasting, Descriptive & Inferential Statistics
ETL & Automation:	SSIS, Python Scripts, Excel Macros, FastAPI, Flask
Databases & Warehousing:	Oracle, MySQL, PostgreSQL, AWS Redshift, Azure SQL Database, Firebase
Cloud & Big Data:	AWS (S3, Redshift), Azure (Data Factory), Google BigQuery
Project Tools & Methodologies:	JIRA, Confluence, Agile (Scrum), BRD/FRD Documentation, User Stories, SDLC, UAT, Git, Docker

PROJECTS

Real Estate Data Analysis & Visualization(R)

- Analyzed 2001–2021 real estate data using R to uncover regional pricing patterns and build ARIMA forecasts over 240 monthly intervals, identify regional pricing trends, market outliers, and temporal patterns, guiding simulated portfolio planning.
- Executed automatic data cleaning and ARIMA forecasting models in R, cutting preparation time by a third and enabling accurate 12-month sales forecasts for portfolio planning.

EDUCATION

Florida Institute of Technology Melbourne, FL

M.S. in Computer Information Systems | GPA: 3.9

August 2023 – December 2024

CMR Technical Campus | Hyderabad, India

B.Tech in Mechanical Engineering

July 2018 – July 2021

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (SAA-C03)

Microsoft Certified – Power BI Data Analyst Associate (PL-300) | Microsoft Certified – Azure Fundamentals (AZ-900)

Google Data Analytics – Foundations (Coursera)

Python Programming – GUVI (IITM Research Park)
