PROFESSIONAL SUMMARY

Dynamic Business Analyst with 4+ years of experience, including 1 year in the U.S., excelling in requirements elicitation, process optimization, stakeholder collaboration, and delivering data-driven solutions to enhance operational efficiency and business performance. Proficient in Agile/Scrum methodologies, UML/BPMN modeling, SQL for data analysis, and tools like JIRA, Visio, and Excel for translating complex business needs into actionable IT requirements. Proven track record in conducting gap analyses, facilitating workshops, and driving cross-functional projects that reduce costs by up to 35% and improve decision-making through insightful recommendations.

TECHNICAL SKILLS

- Business Analysis & Modeling:** UML (Use Cases, Activity Diagrams), BPMN, SWOT/PESTLE Analysis, Requirements Traceability Matrix
- Data & Analytics:** Advanced Excel (PivotTables, VBA), SQL (Joins, Window Functions, CTEs), Tableau, Python (Pandas for data manipulation)
- Process & Project Management:** Agile/Scrum, JIRA, Confluence, MS Visio, SharePoint
- Tools & Platforms:** Azure Data Factory (for data workflows), Git, VS Code, Lucidchart
- Concepts:** Stakeholder Management, Gap Analysis, Change Management, ROI/Benefit Realization, Risk Assessment

PROFESSIONAL EXPERIENCE

Business Analyst | Insight Analytics Solutions, Nashua, NH, USA | June 2024 – Present

- Led requirements gathering workshops for 5+ cross-functional projects, eliciting detailed user stories and functional specs that streamlined sales processes, reducing cycle times by 35% and enabling \$40K+ in annual savings.
- Conducted comprehensive gap analyses and process mapping using Visio and BPMN, identifying inefficiencies in data workflows and recommending Azure-based automations that improved operational throughput by 20%.
- Developed and prioritized product backlogs in JIRA, incorporating stakeholder feedback to refine Agile sprints, resulting in 15% faster delivery of business intelligence solutions.
- Facilitated collaboration between IT and business teams to define KPIs (e.g., customer acquisition cost, process efficiency metrics), driving a 12% improvement in overall business agility through targeted recommendations.
- Environment:** Excel, SQL Server, Azure Data Factory, JIRA, SharePoint, Visio, Git

Business Analyst | Harman Connected Services, India | March 2022 – February 2023

- Delivered 10+ business requirements documents (BRDs) and use case models for operational enhancements, shortening project timelines by 30% across 12+ departments through streamlined Agile ceremonies.
- Optimized end-to-end business processes using Azure integrations and process simulations, accelerating analysis delivery by 25% and enhancing forecast reliability by 20% for strategic planning.
- Created interactive prototypes and wireframes in Lucidchart to validate requirements with 200+ stakeholders, incorporating time-intelligence models for variance tracking and iterative refinements.
- Automated requirements validation workflows with custom scripts, reducing manual review efforts by 40% and ensuring 99% alignment with business objectives in quarterly deliverables.
- Environment:** Excel, Azure Cosmos DB, SharePoint, SQL, JIRA, Visio

Business Analyst | Maxgen Technologies, India | March 2020 – February 2022

- Authored 12+ functional specifications and process flow diagrams for revenue and operations initiatives, boosting efficiency by 25% and standardizing metrics like cycle time and error rates.
- Executed SQL-based data extractions and ETL assessments to support requirements validation, cutting processing delays by 18% for recurring business reports.
- Designed scalable process models (Star/Snowflake schemas) and conducted impact analyses to accelerate solution deployment for 150+ end-users.
- Managed requirements repositories in SharePoint for version control and traceability, improving documentation accessibility by 22% and fortifying change management practices.
- Environment:** Excel, SQL Server, Python, SharePoint, Visio

KEY PROJECTS

Operational Excellence Initiative | Insight Analytics Solutions, USA | **July 2024 – Present**

- Spearheaded requirements elicitation and BPMN modeling for a process optimization project, enabling targeted improvements that increased operational efficiency by 12% and reduced bottlenecks.
- Integrated ERP and SQL data sources for comprehensive gap analysis, shortening validation cycles by 20% across 10,000+ records.
- Established automated traceability and access controls in JIRA, providing real-time visibility and secure collaboration for 100+ stakeholders.
- Environment:** Excel, SQL Server, Python, SharePoint, Visio

Resource Allocation Optimization | Harman Connected Services, India | March 2022 – February 2023

- Facilitated stakeholder workshops to map expense workflows and develop use cases, refining allocation strategies and improving planning accuracy by 15%.
- Streamlined data pipelines with Azure tools for process simulations, minimizing review delays by 25% during Agile iterations.
- Enforced requirements governance and risk mitigation protocols, achieving 100% compliance for sensitive business evaluations.
- Delivered the project two weeks early, generating \$60K in savings through enhanced resource utilization and change management.
- Environment:** Excel, Azure Cosmos DB, Python, SharePoint, JIRA

EDUCATION

Master of Science in Computer Science | Rivier University, Nashua, NH | Graduated May 2025

Bachelor of Technology in Computer Science | Sai Tirumala NVR Engineering College, India | Graduated May 2022

CERTIFICATIONS

- Google Data Analytics Professional Certificate** | Coursera | 2022
- Microsoft Certified:** Azure Fundamentals | Microsoft | 2025
