SUMMARY

- Business Analyst with around 4 years of hands-on experience in leveraging Software Development Life Cycle (SDLC), Agile, and Waterfall methodologies to deliver high-quality solutions.
- Adept at preparing comprehensive documentation like FRD, BRD, SRS, and User Stories, to support cross-functional teams and business stakeholders.
- Skilled in conducting detailed analysis such as cost/benefit, impact, GAP, risk, and SWOT analysis to guide decision-making and ensure successful project outcomes.
- Expert in using project management tools like MS Project, MS Excel, and SharePoint for effective tracking and reporting.
- Well-versed in working with visualization tools such as Tableau and Power BI for data-driven insights.
- Expertise in cloud technologies (AWS, Azure, GCP, DataBricks) and tracking tools including Jira, Figma, and Confluence.
- Ability in time management, leadership, and problem-solving, ensuring timely delivery of solutions while maintaining strong communication and collaboration across teams.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Documentation: FRD, BRD, SRS, User Stories, Personas, Solution Scenarios

Languages: Python, SQL

Project Management Tools: MS Project, MS Excel, MS SharePoint

Visualization Tools: Tableau, Power BI

Cloud Technologies: AWS, Azure, GCP, DataBricks

Analysis Skills: Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis

Tracking/Other Skills: Jira, Microsoft Visio, JAD, RTM, UAT, Confluence, Figma, HP Quality Center

Soft Skills: Time Management, Leadership, Problem-Solving, Negotiation, Decision-Making, Documentation and Presentation, Verbal Communication

Operating System: Windows, Linux, Mac

EXPERIENCE

Centene

Oct 2023 - Present

Business Analyst

USA

- Led end-to-end business analysis processes using Agile methodologies, gathering requirements and documenting functional specifications (FRD, BRD) for cross-functional teams to ensure project alignment and timely delivery.
- Facilitated effective solution design by creating detailed personas, solution scenarios, and conducting GAP analysis to identify areas for process improvement, increasing efficiency by 25% across multiple projects.
- Performed complete cost/benefit analysis to evaluate project feasibility and support ROI-driven decisions, improving resource allocation and budgeting accuracy.
- Developed interactive dashboards and visual reports using Tableau, providing key business insights and contributing to data-driven decision-making for senior leadership.
- Applied DataBricks for data processing and integration, optimizing data workflows and enhancing data accessibility, resulting in a 20% reduction in reporting turnaround time.
- Abstracted MS SharePoint for document management and collaboration, improving team productivity and ensuring version control for project deliverables.

Mphasis

Jan 2020 - Jul 2022

Business Analyst

India

- Controlled business analysis efforts using Waterfall methodology, developing comprehensive Software Requirement Specifications (SRS) and User Stories to ensure clear and actionable project requirements for cross-functional teams.
- Utilized Power BI to design interactive reports and dashboards, enabling stakeholders to access real-time data insights and drive informed decision-making.
- Conducted risk analysis and SWOT analysis to identify potential project challenges and develop mitigation strategies, contributing to a 15% decrease in project risks.
- Collaborated with stakeholders and development teams through JAD sessions to define project scope and resolve complex business challenges, achieving a 98% stakeholder satisfaction rate.
- Established and maintained Requirements Traceability Matrix (RTM) to track the fulfillment of business requirements throughout the project lifecycle, ensuring alignment with client expectations.
- Oversaw User Acceptance Testing, collaborating with stakeholders to validate business requirements and ensure the final product met end-user needs, achieving a 98% UAT success rate.
- Considered wireframes and prototypes using Figma to visualize user interfaces, improving communication with stakeholders and enhancing the user experience.
- Led quality assurance initiatives using HP Quality Center, ensuring that all deliverables met the highest standards of quality and compliance with project specifications.

EDUCATION

Masters in Business Analytics

Saint Peter's University

May 2024
