EDUCATION

Master of Science in Computer Science – Indiana University Bloomington

Aug 2023 - May 2025

Coursework: Software Engineering, Applied Algorithms, Computer Networks, Elements of Artificial Intelligence

GPA: 3.7/4

Bachelor of Technology in Information Technology – University of Mumbai

Jul 2019 - May 2023

Coursework: Object Oriented Programming, Data Structures, Cloud Computing, Database Management System

GPA: 3.8/4

TECHNICAL SKILLS

Programming Languages: SQL, Python (Pandas, NumPy, Seaborn, Matplotlib), R, Java, Flask
Database Technologies: SSMS, MySQL Workbench, PostgreSQL, MongoDB, Snowflake, SSRS, Cassandra
Data Visualization: Power BI, Tableau, Microsoft Excel (Pivot Tables, Power Query), Looker, Google Analytics
Cloud Technologies: AWS (S3, Lambda, DynamoDB), Azure (Data Factory, Databricks), Docker, dbt, BigQuery
Statistical Analysis and Tools: Regression, A/B Testing, ARIMA, Jupyter Notebook, Postman, Git, Selenium

WORK EXPERIENCE

Market Research Analyst

Feb 2025 – Present

Indiana University Bloomington

IN, United States

Evaluated university enrollment patterns to optimize marketing strategies and improve data-driven decision-making.

- Examined 50K student records using Python and SQL, identifying enrollment trends that improved marketing ROI by 15%.
- Orchestrated automated Power BI dashboards tracking 12 KPIs across 50 universities, reducing manual reporting by 30 hours per week.
- Deployed NLP sentiment analysis on more than 100K survey responses, increasing targeted campaign effectiveness by 25%.
- Designed Qualtrics surveys resulting in a 15% reduction in data errors and an 18x increase in responses.

Supply Chain Analyst

Aug 2023 – May 2025

Indiana Memorial Union

IN, United States

Streamlined university dining operations through predictive analytics and vendor relationship management.

- Forecasted demand patterns using linear regression, achieving 95% prediction accuracy and reducing inventory costs by \$20K annually.
- Directed customer satisfaction initiatives through CRM data analysis, driving 25% improvement in satisfaction scores.
- Compiled executive reports from sales trend analysis, driving three major operational improvements and \$30K cost savings.
- Negotiated vendor contracts using data insights, achieving 15% faster delivery times and stronger supplier relationships.

Data Analyst

May 2024 – Dec 2024

Indiana University Health

IN, United States

Oversaw database modernization and analytics initiatives for healthcare systems serving more than 200 professionals.

- Audited and migrated 52 SQL Server instances achieving \$40K in licensing cost savings with zero downtime.
- Enhanced ETL query performance through indexing and table partitioning, reducing average processing time from 96 to 24 minutes.
- Formulated seven KPI for patient analytics dashboard in Power BI, enabling data-driven decisions for 200 healthcare professionals.
- Automated backup processes using PowerShell, eliminating 23% of manual interventions and ensuring HIPAA compliance.
- Engineered eight T-SQL stored procedures supporting seamless database upgrades across critical healthcare systems.

Software Development Engineer - Data

Oct 2021 – May 2023

Image Online Pvt. Ltd.

MH, India

Elevated e-commerce platform performance and built scalable data infrastructure for growing business needs.

- Integrated Elasticsearch-powered analytics and revamped SQL queries, boosting customer retention by 28%.
- Processed JSON/CSV data extraction workflows, automating manual data entry and reducing file processing errors by 35%.
- Validated API responses and data transformations using Postman and PyTest, achieving 99.5% accuracy.
- Coordinated an Agile team of four developers, delivering 9 client modules and improving API response times from 500ms to 200ms.
- Increased user interaction by 15% by leading A/B testing and funnel analysis for digital engagement.

PROJECTS

Healthcare Revenue Analytics Pipeline - Azure, Databricks, Power BI

Spearheaded end-to-end revenue cycle analytics for regional hospital to optimize billing and financial performance.

- Reviewed 500K+ billing records with 98% accuracy, unlocking \$2M+ in revenue optimization opportunities.
- Designed end-to-end ETL pipeline reducing manual reporting from 40 to 8 hours monthly.

Financial Transaction Analysis - PostgreSQL, Power BI

Analyzed large-scale credit card transactions to detect fraud patterns and identify revenue opportunities.

- Assessed 550K+ credit transactions using 18 DAX measures, identifying 7 revenue streams worth \$2M annually.
- Produced an executive dashboard that shortened the monthly reporting cycle from 5 to 2 days.

ACHIEVEMENTS

Graduate Professional Student Government (IUB) - Organized three technical workshops on web development, reaching 50+ students.

National Service Scheme (Mumbai) - Led community service initiatives including beach clean-up drives and blood donation campaigns.
