

JEEVAN KUMAR SIKHA

.NET Backend Developer

Jersey City, NJ

Email: jeevankumarsikha777@gmail.com | Phone: 551-359-0667 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Backend-focused **.NET Developer with 4+ years of experience** building and scaling enterprise-grade ERP, CRM, and healthcare systems. Strong expertise in **C#, ASP.NET Core, SQL Server, REST APIs, and cloud deployments (Azure & AWS)**. Proven track record of owning backend modules, optimizing high-volume APIs, improving database performance, and automating CI/CD pipelines that reduce deployment risk. Experienced in production ownership, security implementation (JWT, RBAC), and delivering measurable business impact. Seeking **Backend / .NET Developer / Software Engineer** roles in the U.S.

TECHNICAL SKILLS

Backend & APIs: C#, ASP.NET Core, .NET Framework, RESTful APIs, Web API, Microservice-oriented design

Databases: SQL Server (2008/2014/2019), Cosmos DB, MySQL, PL/SQL, Stored Procedures, Indexing, Performance Tuning

Cloud & DevOps: Azure App Services, Azure Functions, AWS EC2, S3, RDS, CI/CD Pipelines, Azure DevOps, GitHub Actions

Security: JWT Authentication, ASP.NET Identity, Role-Based Access Control (RBAC)

Frontend (Integration-level): Angular, JavaScript, HTML, CSS, Bootstrap

Tools & Practices: Git, TFS, Unit Testing, Integration Testing, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer – Backend (.NET)

Community Dreams Foundation (CDF) — Jersey City, NJ

Sep 2025 – Present

- Own backend services for internal enterprise applications processing **~5,000 API requests/day** with high availability and reliability.
- Design and maintain **SQL Server schemas, stored procedures, and indexes**, reducing query execution time by **30%**.

- Build and maintain **RESTful APIs** enabling multi-module integrations, improving overall data workflow efficiency by **25%**.
 - Configure and manage **CI/CD pipelines**, reducing deployment failures by **40%** and accelerating release cycles.
 - Deploy and maintain backend services on **AWS EC2**, utilizing **S3** and **RDS** to improve scalability and fault tolerance.
 - Implement **JWT-based authentication and role-based authorization**, securing internal applications and APIs.
 - Automate batch jobs and data import/export workflows, reducing manual operational effort by **20%**.
 - Develop and execute unit and integration tests, maintaining **>95% code coverage** across core modules.
-

Software Development Intern (.NET Backend)

Elevance Health — Remote

May 2024 – Aug 2024

- Contributed to backend development using **C# and SQL Server** for internal healthcare enterprise systems.
 - Automated backend reporting and data-processing workflows, reducing manual effort by **20%**.
 - Integrated REST API endpoints with internal tools, improving data accuracy and consistency by **15%**.
 - Collaborated with cross-functional teams in **Agile/Scrum** environments, contributing to sprint planning and technical documentation.
-

Software Engineer – .NET

Focus Softnet Pvt Ltd — India / Remote

Aug 2020 – Aug 2023

- Owned backend modules for large-scale **ERP and CRM systems**, supporting **10K+ daily transactions** across multi-region workflows.
- Designed and implemented **REST APIs** that reduced data retrieval latency by **~30%**.
- Optimized **SQL Server queries, stored procedures, and indexing strategies**, improving database performance by **25–35%**.
- Developed reusable **C# libraries** for ERP modules, reducing development time for new features by **20%**.
- Integrated **Angular front-end applications** with backend services, improving UI data rendering speed by **~40%**.

- Implemented **JWT authentication and RBAC** for **200+ enterprise users**, strengthening application security.
 - Actively participated in code reviews, sprint planning, and production deployments, achieving **99% on-time delivery**.
 - Mentored junior developers, reducing code review cycles by **15%** and improving overall team code quality.
-

Front-End Developer Intern

Elemica — Hyderabad, India

Jan 2019 – Jun 2019

- Supported front-end development using **HTML, CSS, JavaScript, and Angular**.
 - Improved UI component performance, increasing rendering speed by **~15%**.
 - Collaborated with backend teams to integrate APIs and validate end-to-end data flow.
-

PROJECTS

Cloud-Based Expense Tracker — *ASP.NET Core, SQL Server, Azure*

- Designed backend APIs and database schema for expense tracking and reporting, saving **10+ hours/month** in manual reporting.

Employee Management System — *ASP.NET Core, Angular*

- Built secure backend services with **role-based access control** and real-time updates, increasing HR workflow efficiency by **30%**.
-

CERTIFICATIONS

- AWS Certified Developer – Associate
 - Microsoft Azure Fundamentals (AZ-900)
-

EDUCATION

Master's in Management – Computer & Information Technology

Saint Francis College, New York

Bachelor of Technology – Civil Engineering

India
