PROFESSIONAL EXPERIENCE

LIPE & DALTON INVESTMENT COUNSEL

New York, USA

Intern, FP&A Analyst

May 2024 – Nov 2024

- Developed financial models for revenue, expense, and cash flow forecasting to support long-term strategic planning and optimise resource allocation across investment portfolios, managing a \$500 million portfolio spread across two sectors (REITs in Europe and US auto parts).
- Analyzed budget-to-actual variances across investment portfolios, identifying macroeconomic and sector-specific trends contributing to performance gaps; recommended strategic investment reallocations to enhance portfolio optimization, resulting in improved risk-adjusted returns.
- Assessed financial performance across emerging markets and small/mid-cap sectors, providing supported capital allocation decisions by identifying growth opportunities and sector-specific trends, ultimately enhancing portfolio diversification and alignment with long-term investment goals.
- Leveraged Bloomberg Terminal for real-time financial insights, enhancing competitive benchmarking and enabling proactive portfolio adjustments, providing actionable recommendations that improved returns on underperforming small and mid-cap assets, optimizing portfolio performance.

WESTERN METALS INDUSTRIES PVT. LTD.

Pune, India

Analyst, Financial Planning

July 2022 - July 2023

- Automated a financial model in Excel using advanced functions such as VBA, pivot tables, and macros, streamlining \$10M budget forecasting and variance analysis, resulting in a 20% reduction in manual data processing time, accessibility to cross-departmental teams, and efficiency.
- Led a cost optimization initiative by analyzing and scrutinizing supplier contracts and renegotiating terms, resulting in a 5% decrease in operational expenses and improved resource allocation, as well as boosting departmental cost efficiency across production and supply chain functions.
- Implemented strategic changes based on in-depth financial analysis, market research and attention to detail, driving a 20% improvement in service quality and aligning business strategy with evolving market conditions, which enhanced overall business performance and growth.
- Collaborated with cross-functional teams through effective communication to streamline the financial reporting process, reducing reporting time by 30% through integrating automated data extraction tools and improving the accuracy and timeliness of financial reports for senior management.
- Conducted margin analysis and profitability assessments across product lines, identifying opportunities for cost reductions and pricing adjustments and recommending strategic changes that resulted in a 10% increase in gross margins for the company's highest revenue-generating products.
- Developed a scenario-based financial model to evaluate potential capital investments in new equipment, factoring in macroeconomic conditions and interest rate fluctuations, which provided management with critical insights for a \$5M investment decision to expand manufacturing capacity.
- Created and presented monthly financial performance reviews to senior management, detailing key insights on the variance between actual and budgets and recommending corrective actions, implementing financial KPIs and dashboards to track progress and support decisions in real-time.

THE SWEET ESCAPE, BOUTIQUE

Pune, India

Founder & Manager, FP&A

Mar. 2017 - May 2023

- Engaged with, assessed, and tailored product offerings to meet the needs of a diverse clientele of over 250, aligning with their unique preferences and event themes, this resulted in a 25% quarter-on-quarter growth in our customer base and ensured high retention rates among previous clients
 - Executed digital marketing initiatives, such as targeted email campaigns and social media promotions, that boosted online engagement and sales by 15%, leveraged data-driven insights to optimize ad placements and conversion rates, expanding customer interactions across digital channels.
 - Built various financial controls and reporting mechanisms, utilizing tools like financial dashboards and automated bookkeeping to track key performance indicators (KPIs), enabling real-time decision-making and enhancing financial transparency across the business.
 - Implemented cash flow forecasting and liquidity management strategies quarter on quarter, ensuring sufficient working capital to support business operations and investments, which improved the company's overall cash position and allowed for timely supplier payments.
 - Created detailed financial models for revenue forecasting, cost analysis, and scenario planning, providing management with actionable insights that drove strategic decision-making and helped achieve a 10% reduction in operating expenses and a 5% increase in profit margins.
