Summary

Software Engineer with a Master of Science in Software Engineering and a Bachelor of Science in Computer Science from the University of Wisconsin - La Crosse. Experienced in developing Angular UI tools, Node.js backends, and Python-based image processing software. Proficient in Java, C, Python, SQL, JavaScript/TypeScript, and Assembly with expertise in Angular, Git, Docker, Flask, Node.js, and Postgres. Proven track record in secure software development, data analysis, and project documentation.

Education

Master of Science in Software Engineering

University of Wisconsin - La Crosse, La Crosse, WI
GPA: 3.93

Graduation Date: May 2023

Bachelor of Science in Computer Science

University of Wisconsin - La Crosse, La Crosse, WI
GPA: 3.98

Graduation Date: May 2022

Professional Experience

Software Engineer - TS Clearance

Department of Defense

April 2024 - November 2024

- Developed Angular UI tools to improve development time and accessibility.
- Expanded Node.js backend while complying with security requirements.
- Analyzed large data sets to find useful insights and generate automated reports.

Software Engineer 2

Herzog Technologies, Cedar Rapids, IA

August 2023 - April 2024

- Developed Python-based image processing, object geolocation, and GIS data processing pipeline.
- Created a multi-camera data capture program integrated with GPS using C#.
- Updated HR website using Angular and Flask frameworks.

Research Assistant

University of Wisconsin - La Crosse

July 2021 - December 2021

- Added features to existing software for evaluating mathematical expressions using C, Flex, and Bison.
- Designed readable data visualization graphs using PyPlot.
- Modeled layered architecture and wrote comprehensive project documentation.

Skills

- **Programming Languages:** Java, C, Python, SQL, JavaScript, TypeScript, Assembly
- **Technologies:** Angular, Git, Jira, Docker, Flask, Node.js, Postgres
- **Other:** Data Analysis, Data Visualization, Secure Software Development, Project Documentation
