

JOHN GEREGA

330 Brandywine Drive | Irwin, PA 15642 | 724-610-8033 | jjgerega@gmail.com

OBJECTIVE

Seeking to find an entry-level job where I can apply the skills I have gained through school and internships to contribute to innovative software solutions.

EDUCATION

Pennsylvania Western University
Computer Science B.S.

May 2026

- Major: Computer Science
- Current GPA: 3.91
- Related Course Work
 - Object Oriented Programming (C++, Java)
 - Assembly Programming (MASM)
 - Calculus 1, Calculus 2, Discrete Mathematics, Logic and Switching Theory
 - Data Structures
 - Analysis of Algorithms
 - Assembly language
 - Web Programming (HTML and JavaScript)
 - COBOL
 - Computer Architecture
 - Operating Systems
- Outside course work
 - Git/GitHub course on Pluralsight
 - C# Programming course on Pluralsight
 - MySQL basics tutorial on YouTube

Penn-Trafford High School

- Relevant Course Work
 - AP Computer Science (Java)
 - AP Computer Science Principles (JavaScript)
 - Programming class (Python)

SKILLS & ABILITIES

Programming Languages:

- C
- C++
- Java
- Python
- COBOL
- C#
- JavaScript
- HTML
- Assembly (MASM)

Frameworks and tools:

- React
- Flask
- Docker
- Git
- GitHub
- Microsoft Azure DevOps
- JIRA
- Microsoft Office Suite
- SQL

Core competencies

- Object-Oriented Programming
- Data Structures & Algorithms
- Software Development Lifecycle (SDLC)
- Web Development
- Database Management
- Full-Stack Development

EXPERIENCE

Intern <i>Places Scout, Huntington Beach, CA</i>	June 2019 August 2019
• Reviewed current website functionality and created a testing plan for a replacement system. • Updated documentation to reflect current website functionality. • Used JIRA for ticket tracking	
Referee <i>PA WEST</i>	March 2017 Present
• Responsible for communication between referees, including administrative tasks such as collecting and verifying player cards and rosters. • Manage in-game conflict between players and spectators if necessary	
Seasonal Clerk <i>Fine Wine and Good Spirits</i>	May 2023 August 2024
• Restocked shelves, worked register, and customer service. • Worked in teams to keep the store running smoothly, especially during holidays.	
Intern <i>Encompass Remote</i>	July 2024 July 2024
• Completed a two-week internship focusing on an internal file-share program • Collaborated with a partner to create a dual-sided client-server application using servers • Implemented encryption methods to ensure secure file transfer • Conducted meetings with industry professionals to gather insights and enhance the program's performance	

Peer Tutor
Pennsylvania Western University

August 2023
Present

- Responsible for scheduling office hours
- Help students with a variety of computer science courses
- Collaborated with other tutors to guide students to the correct person

Full-Stack Intern
Encompass Remote

May 2025
August 2025

- Completed a summer internship focusing on a HIPAA-compliant medical patient dashboard program
- Collaborated with a team to create a full-stack application
- Focused mostly on the frontend, ensuring users were redirected correctly and the design
- Worked with version control software GitHub and then Microsoft Azure DevOps to keep track of progress
- Established a base database to store intake data in
- Conducted weekly status meetings with the project manager

ACTIVITIES

Soccer at Arsenal FC - Played 5 years for local club Arsenal FC. Was awarded a scholarship granted to an individual who embodies the spirit of the club.

Software Development Club - Joined sophomore year. Various meetings on various topics ranging from GitHub, history of computers, malware, and various club projects.

Club Soccer at Penn West - Joined intramural club soccer freshman year. Promoted to club secretary in 2023, then to Vice president in 2024. I had to contact local universities to organize competitive league play and run the social media account.
