OBJECTIVE

Motivated Computer Science graduate proficient in Python and Java, seeking an entry-level role in software development or testing to deliver reliable solutions, collaborate effectively, and grow through hands-on industry experience.

EDUCATION

University of Bridgeport - Bridgeport, CT

August 2021 – May 2025

Bachelor of Science: Computer Science

Relevant Coursework

Digital Design

Python

Software Engineering

Network Analysis

Advance Data and File Structure

SKILLS

- Experienced in software development and GPS/Geolocation APIs (e.g., Google Maps API)
- Strong technical writing abilities with clear documentation and reporting skills
- Ability to adapt and manage multiple priorities.
- Skilled in problem-solving and team collaboration.
- **Software:** JavaScript, Python, IntelliJ, Figma, Excel, Visio, Adobe
- **Language:** Fluent in Haitian Creole

PROJECTS

User-Defined Digital Location Identity (LATLOC)

Senior Design Project

- Developed a mobile/web application leveraging GPS to visualize digital locations and calculate optimal routes using the LATLOC (Latitude-Longitude Convergence Point) method.
- Designed UI/UX wireframes using Figma and implemented scalable client-server architecture.
- Focused on interactive engagement and global usability.

Facial Recognition with Laser Tracking

- Designed a real-time facial recognition system using Python and OpenCV for dynamic face detection and tracking.
- Integrated Arduino hardware to control a laser pointer based on facial movement.
- Explored applications in automated security and surveillance systems.

EXPERIENCE

Amazon

North Haven, CT

Warehouse Associate

June 2019 – December 2021

- Loaded outbound shipments with precision, ensuring accurate placement and timely dispatch of packages.
- Managed inventory intake using warehouse management system to maintain organization and flow.

Prime-Line

Bridgeport, CT

Machine Operator

January 2017 – May 2019

- Operated and maintained manufacturing equipment to develop and process various items.
- Conducted quality checks and ensured machinery functionality.
- Monitored warehouse equipment and logistics.

Volunteer Work

Advanced Boyz

Coach

December 2022 - February 2023

- Coached and mentored youth athletes in soccer skill development.
- Supported players in preparing for competitive high school soccer.

Activities/Interests

- University of Bridgeport Men's Soccer
- Chess Club

August 2021 - May 2025

Spring 2024 - Spring 2025
